Subject: transgender bathroom use

---

Hi, Chaney –

Can you provide me with the statement regarding the federal directive from the justice and education departments that you gave the Greenville News?

Also, Sen. Grooms has filed local legislation (or maybe he withdrew it – the story seems to be developing) that would require Berkeley County School District to provide separate facilities for transgender students. (S-1306)

If that gets second reading by the delegation and approved, would the governor sign off on it?

Thanks,  
Brenda Rindge
