Subject: Fwd: Stopchamberabuse Ad running nationwide

To all Media :

Below is my recent letter to our whistle blower Irs agent in NY. If we can get the press nationwide behind this and force IRS to enforce their tax codes , this alone will shut these Chambers down and force them to operate as originally intended . Chambers should not be in any business regardless . I have laid out an entire structure of how they must operate under a

proper mission , Charter and bylaws .The problem is they have become self serving and out of control with excessive salaries and overhead and the ex dirs actually think they are running their own for profit business , and empowered and entitled to compete and try and put their media members out of business . The abuse , unfair trade , business and competitive practices along with damages being caused by them is huge . When Google started ranking them as the most trusted sites for each city, over for profit media ,it got even more abusive . Imagine being a young person just out of college, and starting a local media company, you join the Chamber for help and unknowingly you are looked at as a competitor and are doing nothing but dancing with the devil.

In many markets Savannah as an example the local newspaper is awarded the local visitors guide to publish for the Chamber . What happens is this magazine is only supposed to be mailed out and not distributed locally . If distrusted locally it competes with other media members in this business unfairly and

Is extreme abuse . It also actually works against the local paper for any local tourism products they wish to publish .

The chamber in Charleston is doing their own magazine and distributing it locally trying to put all members out of business much worse than Savannah .

Chambers /CVBs have now figured out that there is much more money to be made in the online media business . They can staff up and run their own websites and make millions using tax monies , members dues and pay no taxes . They also have seen the Internet has replaced the need to publish visitors guides that are only mailed out and also see no need for welcome centers . Local distributed magazines are still viable but Chambers must not be in this business trying to destroy their media members and local media . This also drains local as budgets of all companies we all sell to denying our companies of these sales that we depend on to survive and profit from.

Again mailed out visitors guides and welcome centers are both going away with smart phones for local search and everybody now booking travel rapidly online . To think anyone needs to call a chamber to send them a magazine to book travel or go to a welcome center for info is crazy and wasteful in its self . I have told Morris newspapers in Sav they are dancing with the devil and also the chamber is perhaps tossing the dog a bone to keep them quite as the Savanvah Cvb builds their own multi million local media company silently and growing traffic and revenue 35% annually . We have the accounting to prove this as Savannah fully complied with our Foia request under Georgia law . Note SC law is the same yet we had to sue the Hilton head chamber who refused Foia to us and the Sun news was also refused Foia by the MB Chamber . Everyone lets join together , put politics behind us ,stop worrying about attacks on us and focus purely on facts and law . I repeat over and over Chambers /CVBs with Googles help is one of the biggest threats to all USA local

Media . We all must wake up and face this or as I have also repeated Its like skin cancer if you don't stop or remove it early it will eventually kill you with a slow miserable death .

Note all chambers are separate and have their own unique abuses and violations . We have identified many of them in each of the SC markets and Savanvah for nationwide examples with more to be discovered with full Foia / transparency and Dept of Justice / FBI investigations. Please note we have studied over 100 IRS form 990s of biggest city chambers in America and after review have determined they are all in violation of IRS 501-c6 non profit tax codes and filed

an IRS whistle blower case against all 100. Our company is called Whistle Blowers R US LLC .

There are 3 national organizations offering services to all chambers and CVBs with training and tools on how to abuse the system . I have all info on all of these .

US Chamber ---President Tom Donahue salaried at 4.7 million annual salary Jet and limo usage and only assume more abuse not listed on the IRS form 990. Note all non profits are required to file a form 990 with the IRS . The problem is lrs form 990s are incomplete and IRS is not enforcing their own tax codes which allows many to abuse out tax system . They will chase a poor guy making 40k a yr and audit him, but they are letting the USChamber president and many others to escape and abuse.

ACCE Association of Chamber executives . ACCE.org

Destination Marketing Association - Destinationmarketing.org you must be the local DMO who receives local tax monies to promote your city . Most are Chambers /CVBs that are abusing this right . I have identified all abuses

Now to combat the local Hilton head chamber further on top of lawsuits and IRS Whistle blower case , we have decided to set up a competing association . Our local Chamber is called the Hilton Head Bluffton Chamber , what has happen because people are not happy with the abuse is another group has launched just the Bluffton Chamber and we decided to launch the Virtual Hilton Head Island Chamber leaving off Bluffton . We also registered the Hilton Head Cvb . We have secured the domain names for all. We donated the domains Blufftonchamber.com and vistbluffton.com to the Bluffton Chamber and we will use Hiltonheadislandchamber.com and Hiltonheadcvb.com for our virtual association . What will make our association different from all the rest as it will be all virtual . It will be free membership , Free business listing , free window sticker. No office , no 400k ex dir salaries , no phone , no employees , no accounting , no lawyers , no board , no business after hours , no chamber balls , no taxes all free. The Hilton head Cvb will be separate and the website will only list all local media on home page , all free, no membership . Will create a local board of 8-10 local media experts to apply as local DMO to invest all tax monies wisely , responsibly with full transparency . It will have 1 ex dir salaried at 75k , 1-2 employees not 24-50 . We will eliminate all waste ,abuse and violations . We will recommend this simple inexpensive business model to all cities across America.

Lastly and sorry to be the messenger of more bad news and abuse . I have discovered our own State is now in the media business competing and abusing SC tax paying media . The agencies are ScPRT and SCDNR . They are both selling ads in magazines and websites . I have put our Gov , heads of both agencies and Cheif legal council of the SC dept of revenue this must end !!!!
!! I submitted a Foia to both . What's interesting about this is since its government no non profit , IRS form 990 is not filed or required and no current laws that say they can't compete and abuse. Like any law established in 1940 or lack of any laws this will perhap need a ruling and be challenged in the Sc Supreme Court challenging this as abusive along with unfair trade , business and competitive practices . Imagine chambers and government competing against those of us who pay taxes and contribute to schools , roads etc . The government is the people for the people not allowing elected officials to set up laws or have actions that destroy the people who pay the taxes . We are out of control !!!

Sorry to ramble on. Lots of info to share . Call me which will be better than email to explain

anything I have not explained properly . Thanks

Subject: Fwd: Stopchamberabuse Ad running nationwide

Lev this ad will be placed nationwide.

This will continue to expand . I have hired a political ad agency that shares my concerns on what is going on. Our focus will be to fully educate all USA media and let the media educate the general public and our politicians in Washington as well as all our states down to each city in each state . We will file lawsuits as that opportunity presents its self. We have filed one already in SC , more to come. By IRS not enforcing their 501-c6 non profit tax codes is causing ongoing unfair trade , business and competitive practices , which in turn is causing proven damages in the millions to for profit tax paying media companies . I can prove this case 100% in a court of law , make no mistake about this .

I will complete my investigative reporting and interviews with Wall Street Journal and other large media and continue feeding their reporters all they ask for .

Again the US chamber and that abuse and all big city Chambers / non profit CVBs and tourism authorities like Las Vegas

generating millions in profits from Ad sales and paying no taxes will be main focus for now . We will expose others in many industry non profits paying their leadership employees millions in salaries and self serving interest overhead with little or no money doing as it was intended .

We will also focus on political non profits like the US Chamber and its President Tom Donahue salaried at 4.7 million annual salary , jet , limo usage and what ever else he can steal that is approved and allowed by his power buddy board and not shown on lrs form 990. I repeat by the IRS not enforcing our tax codes of the USA is allowing millions and billions in loss revenue for our country, this must come to an end .

Lev why have a Whistle blower program if you ignore Whistle blowers like me who thought he was doing what our government wanted ,only to find out later he would be ignored and made to feel like the enemy ? Lev where are we ? Where do we go from here ? Lev the only response I got from you was remove you from my emails Why? Does IRS not expect their employees to be courteous to those of us who pay lrs salaries as tax payers ?

Ad placement as follows :

52 state press associations -- ask them can they post to their website ? Do they produce any newsletters or magazines sent to their members ? How is best way to reach all their press members ?

All local media list we have for Hilton Head , Sav , Charleston and Myrtlebeach to begin !
Approx 100

This will expand to many states and Cities

We will place ad in localmedia.org newsletter

Will send to all national media trade associations like NAOA Newspaper association of America

Broadcasters Association etc etc

I have all contacts and numbers and will get all this info Monday morning to send and offer to buy ads to reach all their members .

Everyone please tell me if we are missing anything of extreme importance to add or word differently in this ad . Thanks

We will place ad in our local papers as well, everyone where else do we need to run this ad ? WallStreet Journal Washington DC addition only ? USA Today ? Thanks
