

September 9, 2016

Mike Stake, President
Spent Fuel Reprocessing Group
165 Equinox Loop
Aiken, SC 29803

SUBJECT: RESPONSE TO NOTICE OF INTENT TO SUBMIT A LICENSE APPLICATION TO
STORE SPENT NUCLEAR FUEL

Dear Mr. Stake:

I am writing to acknowledge receipt of your letter of July 26, 2016, in which you expressed the Spent Fuel Reprocessing Group's intent to submit an application to license a storage facility for spent nuclear fuel.

It would assist our planning efforts if you would keep us apprised of specific developments related to the timing of your license application, and the number of casks of the proposed facility. I also encourage you to consider holding pre-application meetings with U.S. Nuclear Regulatory Commission (NRC) staff as you get closer to your submittal date. Please note that applicants pay licensing fees for pre-application meetings with NRC staff to discuss upcoming application submittals.

Should you need additional information or want to schedule a meeting with the NRC, please feel free to contact my office or Mark Lombard, Director of the Division of Spent Fuel Management. Mark Lombard can be reached at 301-415-9956.

Sincerely,

/RA/

Scott W. Moore, Deputy Director
Office of Nuclear Material Safety
and Safeguards
