## South Carolina State Parks

at 19:02:50 on 8/26/2020 UTC

An osprey is a fish-eating bird of prey and can be found in South Carolina anywhere near water. Watch and listen as Ranger Terry & Ranger John tell us all about them!

### The Osprey

**Diane Schels Nuss** Very cool!!!

**Kathryn Braun Fenner** Cool! I always wondered how they ate their catch! When I was a volunteer nature guide at Maine Audubon, they told us they find osprey skeletons with fish skeletons locked in their talons.

**Dan Hillman** That appears to be a young Osprey. I have never seen them eat on the ground... usually at their nest, perch or pole.
