Ms. Haley

Why doesn't the state have the developers improve the infrastructure prior to building houses, malls or anything else that destroys the roads in process of construction rather than pass it to the owner/user. No one else does it either so lets be different.

Why aren't mopeds licensed and insured? They use the roads and are a hazard, let the liquor cycle owners pay for their misdeeds.

Why aren't trailers utility, landscaping, car haulers or whatever required to have a tag and lights mounted high enough to be visible to prevent being a hazard?

Thanks for your time.
