Christian,
Please take a look at this and let me know your thoughts since this appears to be for HHS.

Marcia

I am requesting your thoughts, input, and insight with regards to the attached request from Clemson University for delegation of authority to conduct a Request for Proposals for a back-up data center to support the Medicaid Information System Clemson hosts for SCDHHS.

Subject: Request for Delegation

Mr. Spicer

Attached is a request for delegation of authority for Clemson to solicit and award this contract on our own. When we spoke a few weeks ago, we were thinking it would be a sole source for a 7 year contract; some things have changed and I don't believe it is a sole source so we plan to do an RFP for a five year contract. Timing is very tight and critical with DHHS and CMS as hopefully the attached letter explains.

Please let me know if you have any questions. I appreciate your consideration.
