Subject: TS Ana Update and Final EMD Brief

All

TS Ana made landfall this morning at 6 AM in the NMB area. The 11 AM forecast is for Ana to continue to weaken as the system moves into NC. The tropical storm warning has been dropped for Horry County but continues for NC counties. We will remain at OPGON 4 through Sunday and continue to monitor impacts which should be mainly rain and possible flash flooding. Very few problems have been reported. There have been a few roads flooded and we experienced some sporadic power outages overnight.

This will be the last EMD update for TS Ana. EMD staff will continue to monitor the impacts of Ana and assist in any way that we need to.

If you have any questions or concerns, please give me a call.
