Subject: Proviso

Attachments: Draft Proviso- Submission of IT Plans to DOT 040814[PK].docx

Christian,

Please take a look at this and let me know what you think. Last week, Senator Leatherman asked for some legislation that would encourage/mandate IT consolidation and would mandate agency compliance with state policies. The proviso passed by the House covers the compliance issues. For the consolidation issue, a proviso may be best for the coming year, especially as state IT works on its issues with capacity, fees, plans, etc.

We don't know what we have as a state. We don't know our infrastructure, our spend, our human resources, or our investment in IT projects. This proviso starts to build the information we need to formulate a state plan and sets us up for consolidation efforts led by the DOA.

I propose this as a first step towards consolidation. This proviso would be in addition to the security proviso that was passed by the House.

Marcia
