FOCUSED & MEANINGFUL EDUCATIONAL CHANGE

  
Dear Education Supporter,

As we embark on a new year and new legislative sessions across the country, I encourage you to see the many opportunities we have to achieve bold education reforms for America's kids. We want every child to have access to the best education possible – one that meets their needs and helps them achieve their greatest potential – and that will require continued efforts to expand charter schools and increase parental school choice.

You'll find enclosed our Education Plan for America that outlines ambitious goals for both the state and federal levels, as well as background information on school choice initiatives and what's happening around the country. I urge you to focus on these objectives as you work on education policy in the coming months.

I believe 2015 is the year for transformative education reform, and together we can make that change.

For the kids!

Executive Political Director
