Subject: Cost saving Idea

Hi this is Rebecca from the Bamberg office. I have a cost saving idea that I'd like to share. The office I am in now is a fairly small office and on many days we are extremely slow. Could we not look into changing the days of operation for smaller offices such as my own to where we're open maybe twice a week? On the other days, employees from the smaller offices could be sent to other surrounding offices that could use the help. I originally started in a larger office and know they could always use the help. Thanks in advance for your consideration.
