Once again I urge you to use some LOTTERY money for infrastructure.

Using all lottery money for education is a waste. Teachers receive too much salary for 180 days work. Construction is the PRIORITY and routine maintenance must not be practiced. District 7 in Spartanburg County wants \$185 million to replace a high school built in 1959 and build an elementary school also. District 7 has a low-performance rating academically. There is not any leadership in education. It's all about being the supertendent/land-lord of the biggest plantation. Teaching and knowledge is out the window. Education is a joke.

USE LOTTERY MONEY TO BENEFIT ALL CITIZENS.

USE SOME LOTTERY MONEY ON INFRASTRUCTURE.

Don't raise my taxes with the misuse of lottery funds. Law-makers have neglected infrastructure of several years. They need some guidance.

Sincerely,

Virginia A. Humphreville

Dear Ms. Humphreville,

Thank you for your correspondence regarding funding for bridge and highway infrastructure in South Carolina.

We have had huge successes in recruiting new jobs to our state. That will continue only if we see infrastructure as a priority, whether it is roads, air, rail, or ports. I challenged the legislature to make infrastructure a priority in 2013, and I am thrilled the General Assembly responded. Making roads a priority shows South Carolina's strong commitment to jobs and economic development and will ensure that we have the infrastructure to support our businesses and job growth.

On June 24, 2013, I signed into law House Bill 3360 which will generate more than \$1 billion in transportation funding. We did this without raising taxes. Making this substantial investment in South Carolina's infrastructure proves we are responsible stewards of taxpayer dollars and that we can find innovative ways to meet our most important commitments.

Again, thank you for your involvement and concern. Please do not hesitate to offer your views or contact me in the future. God bless.

My very best,

Inclosures:

1. Your letter dated December 2014 concerning marijuna.
2. My letter dated 12 December 2014 discussing finding money for road repair.

We're both discussing very interesting subjects, however your reply did not address my concerns.

I again recommend some lottery money be used for road maintenance and repair.

If you don't have the authority too do this, than suggest you place it on a ballot for the people to decide.

I agree with you wholeheartly DO NOT RAISE TAXES, but I hope your solution is not TOLL ROADS.

Thank You and MERRY CHRISTMAS

Sincerely,

Virginia A. Humphreville
