In speaking to the Oconee park manager, here is the info I received:

South Carolina State Parks

at 15:18:24 on 5/18/2021 UTC

Oconee has the same regulations as all other state parks concerning # of vehicles per campsite (2).

Golf carts and trailers are allowed in and at the park along with their vehicles. A golf cart and trailer is considered a vehicle.

Policy states that 2 vehicles are allowed per campsite. Because of limited space, erosion concerns, and impact on the surrounding resources at campsites, vehicles (i.e. cars, trucks, boats, golf carts, trailers) are limited to 2 per site. The park offers overflow and trailer parking for excess vehicles. Guests can choose what vehicle to have at their site, but the regulation for 2 vehicles per site still apply.

These guidelines are to help protect the natural resources throughout the park including the campground which we are working hard on reestablishing from years of impact. Guests can help be proactive by utilizing the overflow parking areas in multiple vehicle circumstances.
