

To Whom It May Concern:

Please send this complaint to the proper person:

Someone needs to investigate the Duncan Fire Department in Duncan, SC. The fire chief is Barry Frost. His son Creighton Frost is also a fireman in Greenville, SC but was recently hired to work in Duncan, SC part time which is supposed to be against the rules to work for your father. Creighton has a girlfriend named Leslie Sims. In January of this year Leslie went to the fire department with a professional photographer, who took pictures of Leslie naked and posing on the fire truck. She wore a firemans coat and hat in some pictures. Some pictures were taken with a fireman belt between her legs. While these pictures were being taken and friend took pictures with Leslie's phone and sent them to Creighton's phone. In the back ground you can see Duncan Fire Department. You can 't complain to the Town because the mayor, police chief and town officials are all friends and cover each others back. The chief also has a business named Frost wrecker Service. While his son is working part time and being paid by the Town he leaves to pick up cars while a volunteer fireman is called in to cover. So the son is getting paid twice and is not even at the Fire station. The chief was there when pictures were made but he just pretends like he doesn't see anything. This is not what our tax money is used for.
