Tony, If you check with the Appalachian COG that will be helpful. I believe the COG recently contacted providers to let them know they were experiencing problems with AIM. Thanks – Angie

Subject: RE: AIM System Inquiry

Angie,

I am not aware of any issues with AIM. We did consolidate "Activities" to more accurately match our federal reporting requirements. Some COG's tried to use old Activities after they received the new ones. As far as I know this has been corrected. If there are specific questions, I need more details please.

I will also check on reimbursements to see if Appalachia is behind.

Thanks.

Tony

Subject: AIM System Inquiry

Tony, Senator Alexander asked me to contact you regarding the AIM system and issues the local COG and providers may be currently experiencing with entering data required for reimbursement. If you could give me an update on any issues with the AIM system and/or delays in reimbursements for providers, that would be helpful.

Thank you for your assistance. Angie-
