

# Amorriage

Amorriage – The proposed definition for same-sex unions.

Individual Freedom is a hallmark of our society. Marriage or the concept of Marriage can be available to all but should have a terminology onto itself for same-sex unions called Amorriage. “Civil Union” as presently used is a cold expression and does not provide for all the rights and privileges as Marriage. Amorriage would give freedom and all the rights to those who want same sex unions while preserving Marriage to those who want opposite sex unions. Marriage is a practice unto itself and should be preserved. Amorriage brings warmth to same sex unions and will define a new tradition for these unions carrying with it respect, ceremony, acknowledgement and lifetime commitment.

Most people are hung up on redefining Marriage not on people’s rights. The term Marriage should remain as traditionally defined in so saying the only path to having all the same rights does not have to go through the beliefs and traditions of others.

**This separation of expression is vital in society just as the freedom of religion does not require all religions to be recognized as one religion in order for everyone to have freedom of religion equally.**

A new body of laws will be created to deal with the nuances of same-sex unions as well as judicial decisions which would impact Marriage and then apply to opposite-sex unions creating a different dynamic altering the relationship that people want to maintain between a married man and women.

Government should not get in the way of people’s freedom nor should it force one’s beliefs or lifestyles onto others. Therefore maintaining Marriage and providing for Amorriage is imperative to everyone’s freedom.

The states should have the right to keep these unions separate under Marriage and Amorriage while carrying full rights equally to each. The current trend of forced inclusion is not the way.

The nature of language is change and evolution. Over time new words have been created. Amorriage would now be the expression of same-sex unions which etymologically means a union of love.

It seems so hard for everyone to see this simple solution since everyone has been spending years picking sides on this issue and not understanding both sides can have what they want and the world will be a much better place.

Respectfully,  
Juno
