South Carolina State Parks

at 13:27:53 on 11/03/2020 UTC · 🌐

Did you know there is a cactus native to South Carolina? AND it produces fruit? Take a listen and find out more about this plant!

Amber Bowers Asmus We have two big clumps in my parents yard.

at 14:17:34 on 11/03/2020 UTC

Selah Linder I remember snacking on these as a kid. They are fun to eat. I harvest them by torching the prickles off the fruit first and pick them by hand. I don't remember ever using tongs, but that's a good idea. I do the same with the leaf pads. They are edible as well. They call them nopales in the Southwest. I like to pickle them with onion and jalepeno (nopalitas).

My favorite way to eat them is as a pizza topping or in refried beans. These days I buy nopalitos in a jar since I don't have any prickly pear in my yard.

South Carolina Parks Good job Ranger!!
at 18:17:46 on 11/03/2020 UTC

Patti Masencup Gibson I didn't realize they were native. They're a bit of trouble to harvest (both pads and fruit) but worth it.
at 18:52:45 on 11/03/2020 UTC

Allison Gill Angela Nadeau is this the kind of cactus we saw while walking?
