

October 13, 2015

Chief Mark A. Keel
SLED Headquarters
4400 Broad River Road
Columbia, South Carolina 29210

Dear Chief Keel:

My name is Sean Bledsoe; I am the President of VC Medical Group, LLC. We are a licensed LLC and we offer medical services to doctors, medical groups, hospitals and government agencies. We have had an opportunity to talk to Dr. Todd Hughey and look forward to re-convening our conversations with him Monday afternoon or Tuesday.

This is the proposed annual contract which will serve the entire State of South Carolina. Our proposal will save the state 4 million dollars annually. We have attached a spreadsheet to demonstrate these savings. Furthermore, VC Medical will be able to provide over a million dollars in jobs on an annual basis. We are going to develop a customer service center to better your agency. This center will handle all customer service aspects of the toxicology contract, so we do not burden your already busy staff with those issues. We have spoken to Dr. Hughey about the plans for adding a toxicology lab in the state of South Carolina within the next 18-24 months to service all your state needs.

We have software specifically for these types of contracts. This software will allow us to track every specimen from when it is picked up, delivered to the lab and tested. The IT group we use for these

project's will provide the IT security necessary to protect the privacy of the tested parties to the highest level. Lieutenant Smith has had the opportunity review our credentials and the certifications of the lab. Included with this letter are the following items: SLED annual budget savings, Projections of Call Center Startup cost which VC Medical will provide, and chain of custody procedures from current lab.

I thank for your time and I look forward to discussing this pertinent matter with you.

Respectfully,

Sean Bledsoe
President
