Time past since the unfortunate day in Charleston has shown most people, White and Black alike, Carolina, as well as Nation Wide, do not want the REBEL BATTLE FLAG(s) removed from any l any SOUTHERN STATE. Thanks for replying Governor Haley. The real issue is not about the flag, but about hate born from yesterday. Removing the flag (I do not fly the flag), but removing it will do nothing for those who that are full of hate. Once goes the flag, then the call will go out to remove all symbols dealing with confederacy, which is already occurring in Macon Ga, led by ex. Mayor Jack Ellis. Bowing down to only point out the atrocities committed by the white race in the past, allows those who cry the loud oppose America's history off the hook. You see governor, long before slavery and hate was ever present in America by the Caucasian race, the African race first practiced it in Africa, on their own people, as they were freed in America, some of the freed ones went and got slaves for themselves, slaves of the same race. The call for the flag and artifacts of America history be removed, from those whose hearts are toward the caucasian race, but not against the African race who practiced the same thing the ones being the only racist race of people on earth, will do nothing to heal the division that exist between is akin to sweeping dirt under the rug. One day that dirt will get back out. The part you are playing down to those who cry the loudest, is allowing them to become the head and the offspring of the future. If you are one of, become the tail. Once America is dismantled, you and those who supported the right but not of all will have played a major role of the take over of America. Take a history lesson from (Robert Mugabe) He too hated the caucasian race, removed them from the farms, put novices, people of his own race in charge of the farms. Zimbabwe went from a self sufficient nation to another well fair ruled by a ruling Governor, and you inability to stand up for truth, when America becomes the next welfare state that will have to depend on other nations to feed her, you will have played a major role in that scene becoming reality Good Day.

Thank you for hearing me out.

Dear Governor: Thanks you for your reply and I quite agree with all you have said and done. If the dishonor done to the memory of those who fought under that flag it was done by those who use it as a symbol of hatred. As I mentioned in my first letter to you, both sides had courageous people fighting in that war. I am not so naive as to believe that all who fought under the American flag for the North were slaves. Racism was and is not a Southern property. There were many southerners who were anti-slavery and risked a great deal more in that stance than did a person from New England. The flag is a piece of history, not a rallying point, and it does belong in a museum where it can rest among its honored people where their land more than they did an institution that did not deserve their courage and loyalty. I believe Lincoln himself did not honor the cause of slavery and even said he wished he had not left the Union army loyal to his state and to his people as he knew them, as were many others. The real dishonor to the history and to the people who gave their lives and continue to give their lives in wars fought long ago is in those who hide their hatred and ugliness of mind and heart behind that flag. Your stance of all who join you in your decent and honorable and right action are for me the true Southern care, and best to all, John [REDACTED]

Thank you for your reply. I hope you state does the right thing and stops the talk about heritage. It racism. Not sure what heritage means to you, but here is a quote from the current issue of The New partly taken from the South Carolina Convention of 1860. "Here is the South Carolina convention explaining the rationale for secession: A geographical line has been drawn across the Union, and a north of that line have united in the election of a man to the high office of President of the United States whose opinions and purposes are hostile to slavery. He is to be entrusted with the administration of the common Government, because he has declared that that "Government cannot endure permanently half slave and half free. The great bugaboo of a combination for the submersion of the Constitution, has been aided in some of the States by elevating to citizenship, persons who, by the supreme law of the land, are incapable of becoming citizens; and their voices have been used to inaugurate a new policy, hostile to the South, and destructive of its beliefs and its institutions." Governor Haley,

Please take the time to watch this video by a young lady, Karen Cooper in her strong defense of the Confederate Flag! She understands "Southern Heritage" - you certainly don't! I do believe this young lady says it better than even I can!!! You have made a decision that will only DIVIDE South Carolina not the governor South Carolina needs!

The NAACP "divides us" 100 times more than that flag.

I learned in high school, elected officials are supposed to represent what a majority of the people want them, want them to do.

By siding with the NAACP on the confederate flag issue, you are going against your constituents. Your reaction is basically selling out, the very people who put you there, and nothing more than caving to pressure. What will you do when they go after something you really do appreciate?

Sadly, you have disappointed many, to please the very people who voted against you in the past. Those same "democrats" will vote against you in the future, and now so will everyone I know.

Governor Haley; Nice, politically correct answer to something that should have never even been brought up. WHAT will you do when some politically correct idiot decides to shoot or kill people, with the American flag in the picture? Will you remove the American Flag under the deceptive ruse of it no longer stands for the American people? I believe you and others like you, would do that to stay politically correct. You are very disappointing in your decision, but not really unexpected. I wonder, will you stand up for Christianity, the type that is in the Bible, when the time comes? I rather doubt it; it appears that staying politically correct and being politically correct is more important to today's "leaders".

I must say that your words and your actions seems like contradictions. You say that you are fixed families and the community that was shaken by the recent tragedy, however, your actions show otherwise. You sought to immediately politicize the situation by recommending the removal of the Confederate battle flag from the state building. You don't realize what you have done by suggesting such action. The flag is not to be considered for removal from your state building, but it has ALREADY been removed from several venues such as Amazon, Ebay and Wal-Mart.com. This is very disturbing to me! This flag does not represent oppression, but NOT the oppression of slavery. This flag represents the Confederate government that was formed in order to be free from the oppression of the over reach of heavy handed big government. The Confederate battle flag that you and others seek to remove from our southern culture has absolutely nothing to do with race nor the horrific crime committed by Dylan Roof. To think that it does, is sheer ignorance. I feel so inclined to continue pursuing the removal of a symbol that means so much more than what it does--a symbol that represents the heritage from many of our southern ancestors, I ask you to not just be brought to vote within South Carolina's legislature, but take it to the people and allow them to have their voices be heard.

Sincerely, Tera Smith~A Concerned Southern Citizen

Your reply to my previous e-mail is appreciated. However, you contradict yourself when you say not to dwell on issues that divide us. The Confederate Battle Flag is one such issue. The Confederate Battle Flag today finds itself in the center of much controversy. The cry to take this flag down is unjustified. The Confederate Battle Flag was simply just that. It was never a National flag of the Confederacy. So how have it have flown over the Southern nation and represented slavery or racism? This myth is continued by education and ignorance among common citizens and politicians. Why not put this issue to the referendum of SC? If they vote to keep it, then you are off the hook. If not, then your stance is justified. Either way you win. Supposedly being a Lady of intelligence, I am surprised you did not recommend this.

Excuse me but ALL hate groups use that flag and the American flag - is it next!!!! Its a flag and the had nothing to do with slavery. You forget who voted and put you up there in office. I am now extr disappointed in you and your actions-bending over for these people. History is history and you can it. The Confederate Flag will fly regardless of you taking it down-it will continue to fly. Thank you for our First and Second Amendment Rights. One Flag will come down but thousands will now fly up North are flying it proudly - even Europeans - Brazil, Italy-look it up.

But rest assure - you will NOT have my vote your next election year-you will find out as everyone the majority will not tolerate this kind of ignorance. Our rights are slowly being taken away day by people are getting tired of it.

I am very sad and disappointed by your actions-you are no different from any other politician up th forget about the people who voted them into their positions - you now operate on your own agenda groups who are paying you under the table. You are no more than a puppet and you as well as the deserve to represent me or anyone in the State of South Carolina.

Apparently, my recent email to your office regarding the virtues of the confederate flag was based of knowledge. Further research and analysis shows the palmetto to be the true symbol of the confederate. I apologize for my ill placed beliefs, and whole heartedly support the governor. Take down that dirt it. I digress. We'll done and best of luck.

Dear Governor Haley,

As a supporter of yours at the ballot box and as someone generally satisfied with the job you've been in office, I regret that I must express to you my extreme displeasure with the way you handled the issue of the Confederate flag on State grounds.

First of all, you failed to see that it was not a legitimate issue but one concocted by the Democrats, Gestapo and race baiters out of a totally peripheral occurrence - the appearance of the flag in Dylann Roof's promotional selfie. It was not the flag that animated that monster to commit his horrible crime. If you look at the rants in his so called manifesto, it was the affirmative action mandates, the quota systems, preferential treatment based on race that are practiced and ruthlessly enforced at every level of society that pushed him over the edge. Not that it matters. What matters for purposes of this discussion is that it was the Confederate flag. He might have posed with the stars and stripes - many of these nuts see themselves as American patriots. Or he might have posed with the flag of South Carolina, that symbol of the South that defied the Union at Fort Sumter and started the Civil War. In either case, would you have had the emblem pulled down? I'll take a wild guess and say that you wouldn't.

My intent in making these points is not to suggest that you should have made a case for keeping the flag. It was on arguing that it was the pervasive institutionalized anti white bias in America today that motivated the issue. That would have been political suicide, if only because of the pervasive institutionalized bias

Republicans and their toxic icons. Risible the accusations may be but they also stuck, and no less so how you handled it. By acting defensively and practically apologizing for the flag you only gave credence to their charges. The legacy of the flag and whatever connection it had to slavery became a Republican legacy, your legacy.

Yes, you should have removed the flag. But you should have first seized the opportunity to shout loud that it was the Democrat's standard; and that it was a Democrat governor who hoisted it above the clouds and that it was a Republican who wrestled a Democrat legislature into a compromise to move it from the memorial grounds. You should have asked the Democrats for permission to remove it, out respect you know, since it was they who raised it in the first place and fought tooth and nail to keep it. And you should have reminded everyone about George Wallace, Lester Maddox, Bill Clinton's mentor William Fulbright, Grand Kleagle Robert Byrd, and the whole rouge's gallery of Democrat crackers who waged a racist war against blacks for 100 years after the Civil War ended. As for the stars and bars, you could have mentioned how they appeared on Clinton-Gore 1992 presidential campaign buttons passed out among white voters in the South. You could have done these things in a healing conciliatory tone, waxing about how by removing the flag you mean to slight Democrats and their history and traditions but how it's time now to forgive the sins and move on. Such irony sarcasm may not be most proper for political discourse but it's far more honorable than vicious derision and flat out invective that Democrats throw around. It also is far more effective in withstanding attacks than the meek apologies and explanations typically offered in response by our side. It validates rather than refutes the allegations.

Please know that I am firmly on your side and that I will stick by you. I admire your dedication to service and hope to see you continue your good work. I just think you should do more than clinch the face of all the dirty shots thrown at you; you need to hit back with some good shots of your own. You'd be doing it for all of us, by which I mean all true Americans.

Sincerely,

Tony [REDACTED]

Governor,

The flag of betrayal, the flag that rallied people to enslave people like you given your ethnic background, is a stain of shame for South Carolina and a national disgrace. It is a public reminder of treason and in cruelty. There is no honorable history.

Stop leading from behind and waiting for your legislature to debate the issue. Demonstrate leadership and remove the flag yourself until the debate is over. There will be many who follow and support

Thank you for your response. However, a rebuttal;

Your decision will only cause more division and divisiveness, just like Obama's ridiculous state church in Charleston called Southern symbolism 'racist' (so much for healing, it only polarized people). Politically correct nonsense causes more racial division and more strife, which I'm starting to believe is the overall goal, but merely masked as 'the right thing to do'. At least you haven't changed your stance, as the tides are turning in the opposite direction of what the media intended. To that, your bravery is to be commended. Obama is a true politician ... he switches sides when it suits him. Only Bill Clinton is better at doing so. We are moral relativists, liars and are contradictory.

My people aren't moral relativists, we remember our dead and honour our ancestors. Thankfully, the South Carolina Legislature remembers who they are, despite the paid trolls bothering them from the New York media. They know the chaos that will happen if the flag is moved - they remember they are actually South Carolina.

That is what makes us different from the rest of America, who have no idea who they even are or where they come from ...

Fortunately, those that know their past, can plot their future - this is what I'm banking on, not some 'woke' marxist concepts which, while pretending as such, have no future.

Cheers and again, this is the only thing I take issue with you on ... your support of the firearms industry.

With Regards,
John

I thank you for your reply but your actions are not representing all the members of your great State Southland who are entitled to the symbols of their lineage just the same as anyone else. Are we racist because someone says so or a crazy teen kills people? Those precious families of the victims graciously forgive the killer but we, the descendants of Confederate soldiers are seem unforgiven for all that we have accused of. What right does anyone have to negate our proud heritage? Those who preach equality and tolerance do not mean a word they say. They have stopped listening to me, as have you.
Very Respectfully,

Dear Governor Haley,

I am very disappointed in your reply.

I mailed you a letter regarding my horrible experience in trying to call your office about the matter Confederate flag. Since I have received no reply to it I can only assume the letter never reached you to read. A black lady answered your office phone, I told her my reason for calling, and she told a young black man. I proceeded to tell him my reason for calling and he was not very receptive nor our conversation. I asked for his name and he said Jamal. I asked for his last name and he told me I to give it to me. I was shocked. I asked him again for his full name and again he said he chose not to give it to me. I asked to be transferred to someone else in your office and he disconnected the call. I called the main number of your office and Jamal answered by saying, "oh, I believe you were cut off!" I cannot allow this type of behavior in the office of the governor of the state of South Carolina! It is shocking that an employee of yours would refuse to give me his last name and yet he knows my name and phone number. Why when he saw the caller ID he answered your phone in that manner!

My great grandfather's grave has a headstone that reads simply, "A Confederate soldier". The flag is a fabric. It cannot harm anyone. It does not divide races. It does not divide our nation. It had no part in the lives of those nine beautiful individuals in Charleston! This is simply an excuse to ignore the voters of South Carolina and our desire to keep the Confederate flag where it is as we voted on before.

I can assure you that I, and many, many more South Carolinians, will do all we can to prevent you from being reelected in any position in South Carolina at the polls when we vote! You do not understand South Carolina and most of South Carolina believe you took the coward's way out and you should be ashamed as a representative. It is obvious to most that your aspirations reach beyond an office in South Carolina.

For you to cave in on an issue that never should have been allowed to be brought up after this horrible experience proves that you know nothing about the true hearts of true South Carolinians.

Please ask Jamal for my personal letter I mailed to you. I feel certain it never reached your desk, but it was shredded in a shredding machine instead.

When your term is up I hope I never see that you have been elected for any position in politics again. You are not doing what the citizens of South Carolina voted on.

Dear Mr. [REDACTED]

Thank
you for
taking the time to contact us.

These have been very difficult times
for South Carolina, but our hearts and minds remain fixed on
the nine families and the communities shaken
by this tragedy.

Their grace and strength set a powerful example
for us all.

Even
in the
midst of our grief, South Carolina set about the process of
healing – not by talking about issues
that divide us – but by hugging our neighbors, holding
vigils, honoring those we lost, and falling
to our knees in prayer.

We came together as a state, as a unified people, to remember those we lost and to begin this healing process.

We've also come together in acknowledging that certain symbols and events of our past resonate differently among us.

For some, the Confederate flag represents a history of their ancestry and heritage.

For others, the flag is a deeply painful reminder of a brutally oppressive past.

Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to make a statement about moving the flag from the Statehouse grounds.

This is a moment in which we can say that the flag, while an integral part of our past, does not represent the future of our great state, and that by removing a symbol that divides us, we can move forward as a state in harmony.

The time has come for us to set the flag among the other markers of our history so we can set our eyes on the great promise of a united South Carolina.

Gov Haley,

I guess I can say "Thank you" for your reply, but I am thinking that this came from someone way d
ladder of supervision that answers e-mails such as mine as I am sure that you have gotten thousand

I CANNOT BELIEVE STILL TO THIS DAY THAT YOU USED THIS TERRIBLE EVENT IN CHARLESTON, SC TO BRING UP AN ISSUE THAT WAS ALREADY DECIDED BY OUR S REPS/SENATORS - BOTH BLACK AND WHITE AND YET SINCE THERE IS NO APPEASII PLEASEING THE "LIBERAL, LEFT, WING THAT YOU HAVE CAVED INTO AND TOOK UI CAUSE AND VIEWPOINT, EVEN THOUGH THE VAST MAJORITY OF VOTERS IN THIS : JUST AS I DO ABOUT OUR HISTORY AND CONFEDERATE HERITAGE.

Did you know that in 1992, in the Holy City of Charleston, SC, "Three Black Sailors & Two Black who were living in the Charleston, SC area, kidnapped a young, white, lady and "drugged and bru for several days and then offered her body to all the black men living in the trailer park that they s (woman was held as a sex slave) and after all of this abuse, the three black sailors took the young into a remote area and shot her in the face several times and killed her. NOW, SHOULD WE TAK ALL MONUMENTS THAT BELONG TO THE NAACP OR ANYTHING HONORING BLACK BECAUSE OF THIS??? Heck no, because of 5 crazy black people raped and killed a young white not mean that everything black is bad or all black people are out to hurt and abuse white women. way would be an insult to all good and law abiding black people in this state. Does one crazy, me young white guy, who did a horrible crime by killing all of those innocent GOD-Fearing Black Pe Charleston, SC make our Southern History and Heritage bad and ugly??? It should not as SLAVE over 84 years under the Flag of The United States of America and NO CONFEDERATE SHIP E' CARRIED THE FIRST SLAVE TO AMERICA ON IT AS THEY WERE ALL BROUGHT HEI AMERICA BY NEW ENGLAND SHIP BUILDERS AND OWNERS, SO THEY COULD MAK PROFIT AND BY MANY FOREIGN NATIONS AS WELL. BLACKS WERE CAPTURED AN INTO SLAVERY BY THEIR OWN PEOPLE, DOES THE AFRICAN-AMERICAN MONUME STATE HOUSE GROUNDS SHOW THIS HAPPENING AND ALSO DOES IT SHOW THE U STATES FLAG ON ALL THE SLAVE SHIPS SAILING INTO CHARLESTON HARBOR??? VERY SERIOUSLY.

It is so sad that your administration, led by you Gov Haley, has chosen to politicize something so happened in Charleston to those dear, innocent people by calling for the removal of the Confeder Confederate Monument at this time when there are so many other issues that need your attention now look at the "hornets nest YOU HAVE STIRRED UP ALL OVER THE SOUTH AND SOU CAROLINA"!!!! TEENAGE PREGNANCY, KIDS THAT CAN'T READ OR WRITE WELL, ALCOHOL ABUSE, NOT ENOUGH GOOD PAYING JOBS FOR PEOPLE OF ALL RACES

I have heard it said by some in this state that "you have been bought out"??? I would hate to think it become like the Democrats and the Clinton's, where money can buy your support and power??? After I have done I don't know how long it will be in this state before Native South Carolinians will ever vote someone who was not born here and believe in our Southern History and Heritage just like the vast people in this state do now that vote. The people that back you on this will feel the "fallout" come which means a lot of Republicans will lose their place in the House or Senate and you will have "plunged" right into the waiting arms of the Democrats who will be running our state again as you have divided it into a "black/white" agenda again. I really thought you a much smarter and wiser state leader than I guess only time will tell, but the damage for you and what you have brought on this state will be felt many years to come.

A Very Disappointed Voter - Who Voted For You Twice (I won't ever make that mistake again)

Thank you for taking the time to contact us. These have been very difficult times for South Carolina hearts and minds remain fixed on the nine families and the communities shaken by this tragedy. Their strength set a powerful example for us all. Indeed they did, and those citizens have grace and kinder very souls. They, unlike you, do not judge the acts of a psychopath on a flag of the South.

Even in the midst of our grief, South Carolina set about the process of healing – not by talking about divide us – but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our prayer. We came together as a state, as a unified people, to remember those we lost and to begin the process. Oh, but I'll wager they never ever thought that you would attempt to remove something of are still so proud to "begin the healing process"....

We've also come together in acknowledging that certain symbols and events of our past resonate deep among us. For some, the Confederate flag represents a history of their ancestry and heritage. Than Governor. MY ANCESTRY and MY HERITAGE. For others, the flag is a deeply painful reminder of an oppressive past. Really? Exactly what "others"??? Maybe the "others", or perhaps the politically correct to whom you now have pandered, need to move on and stop their boo-hooing over something they a part of. Congratulations, Ms. Haley. Your actions have started a snowball effect against the Confederate. Do you realize that our governor has taken action to remove and replace the Sons of the Confederate plate in our state or that actions have been taken to remove anything Confederate from the Manassas Museum?

Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to statement about moving the flag from the Statehouse grounds. This is a moment in which we can: flag, while an integral part of our past, YOUR past, Governor?? How dare you. You have no past. You are the child of Indian immigrants. You have no connection to anyone who fought in the Civil War. You have no business discrediting and besmirching something to which you have no claim. represent the our great state, and that by removing a symbol that divides us, YOU, by your actions, of dismissing disgracing my heritage, we can move forward as a state in harmony. Bully for you. And you procc the door to great dissent in this country... once again, the South is the problem.

The time has come for us to set the flag among the other markers of our history YOUR history??? really. Where were your ancestors between 1861 and 1864? Somewhere on the Ganges, I would t near the battlefields of Brandy Station, VA or Bull Run, VA or Gettysburg, Ft. Sumter, etc., etc... our eyes on the great promise of a united South Carolina. God bless.
You, Governor, are a disgrace. I will continue to fly the Stars and Bars and bear the flag of the South "Heritage not Hate" And I do so hope that this will end in your last run as governor of a state that

In other words, you're pandering to the extreme leftist faction, headed by the NAACP and their 24-against one flag. I remind you that South Carolina was the FIRST state to secede, for reasons that I do with slavery. I suggest you read the Articles of Secession that South Carolina passed. Of course the story on Byron Thomas, the black University of South Carolina student, who was expelled for taking down a Confederate battle flag. However, I notice that, when he expressed a desire to sue, the backed down. No white students may fly the Confederate battle flag in their dorm rooms, but that student can. What no one takes into account is that thousands of free blacks volunteered to serve in Confederate Army and Navy. Unlike the Union forces, in which black soldiers had to serve in segregated black Confederates served in the same companies as their white comrades. Have you ever studied this war and your state's part in it? Alright, since we're playing this game, I'm highly offended by the homosexual rainbow flag. Make sure that flag is banned from all state buildings and events. I'm beginning to understand why my school superintendent in the 1970s, banned all travel through South Carolina. Sophomores went on our American Heritage class trip to Washington, DC and Philadelphia. The South Carolina tried to force harshly unfair regulations about our school buses driving through the state. Our trip bypassed South Carolina by going through Georgia into Tennessee, then cutting into North Carolina some 30 years, until the trips were deemed too expensive, that high school trip never included South Carolina for which I am now thankful. The problem with South Carolina isn't the people- it's the PC BS liberal spineless RINO Republicans who are afraid to stand up to them. I was upset that I had a financial crisis which kept me from attending the Sons of Confederate Veterans national reunion on Charleston Island. I wanted to see the CSS Hunley and the sister ship of my father's destroyer that he served on in WWI. I'm glad that I did not go, as I refuse to spend one penny of my hard-earned money where my HERITAGE is not welcome! David L. Bohmfalk, MSCJ. MSIS -----Original Message----- From:

Dear Ma'am,

Thank you for your reply. Although I do not agree with this decision, I respect your reasoning. I do need to educate people on the real causes of the war between the states and that many African American Native Americans also fought for this Flag. If you must take down this Noble Banner, I would like (although it is not my place to ask a favor of a true leader such as you). I would like to adopt one of the flags so that I can honor it in the way my forefathers did. I would hate to see it destroyed because some people have for it. I will be more than happy to pay for the shipping so that the people of the South Carolina will not have to be burdened with that debt. I await your response.

Very Respectfully Yours,

Dan [REDACTED]

Governor, that is your opinion and I do not share it nor do a vast number of people. You single han disgraced the memory of our soldiers by calling for the flag to be removed when you did. Shame c men that died in battle deserve better, and NONE of them would have carried out such an act of sa that took place in Charleston and your actions said the opposite. I am disturbed that I voted for you indeed.

Thank you Governor Haley for your kind response. I am very proud of your decision to take down Confederate flag from public buildings in Charleston, SC. As a minister I am praying for the recovery of parishioners and relatives of the victims of this unspeakable crime. I was impressed by their unconditional forgiveness. God bless you as you lead your state to reconciliation and healing. Sincerely, Rev. [REDACTED]

The Battle Flag of the Confederacy divides us due to ignorance. This is not even the flag that flew Confederacy.

Do the people that oppose the Battle Flag know about Africans enslaving white Europeans. Yes, r Barbary slave trade. Odds are my ancestors were slaves long before blacks were slaves. People hav enslaved due to religion, ethnicity, and race for years....Whites were the first to stop slavery in moc whereas slavery still continues in Africa to this day. Removing the flag will not fix racism. Educati dialogue will. You can NOT blame the flag for pulling the trigger and killing the people in that ch you can't blame the gun or the Gyms t-shirt that he wore. An IDIOT pulled the trigger. He just h have some pictures taken of him holding the flag. He is also burning the American Flag, are we go down??Once you get off this political band wagon, why don't you ban rap music that degrades wo the 'n' word. Talk about driving a wedge between sexes and races. Wow, that would step on some won't do that because it is a part of the black culture. You would be on the wrong side of the road. you admit that a symbol does not cause racism. Ignorance of history, and 'some' people generate racism. Stand up for those (black and white) that died under the Battle Flag of the Confederacy.

Let the people vote as to the fate of the "Battle Flag of the Confederacy" Politicians are to worrie explaining their votes.

I am ashamed of my state. The killings of the 9 people in Charleston had nothing to do with the Co Flag but were the acts a lunatic. You, Ms. Haley, have fallen prey to a knee jerk reaction and uninformed political correctness of the liberal media. I certainly hope that you don't have any hopes any future offices because you surely will NOT get my vote.

This response does not answer my email requesting for repeal of Church Gun Free zones. I have a question; are laws made to protect the law abiding citizen or are they made to protect the criminals? now, the CWP law preventing church carry and basically identifying churches as gun free zones or criminals intent on committing murders. I would request a response to why churches are gun free zones. Dear Mr. Lester, On the evening of Wednesday, June 17, 2015, the world witnessed a senseless tragedy at Emanuel A.M.E. Church in our beloved Charleston, South Carolina. Heartbroken, words fail us as we try to make sense of this unexpected loss of life at one of our places of worship. We will never understand what motivates anyone to commit such a vile and hateful act, but our hearts and minds remain fixed on the families and healing our state. The families' grace and strength set a powerful example for us all, a response of the people of South Carolina helped us strengthen our love for each other. Even in the grief, South Carolina set about the process of healing by hugging our neighbors, holding vigils, honoring those we lost, and falling to our knees in prayer. We will continue to come together as a state, as a unified people, never forget those we lost. Michael, Rena, Nalin, and I join countless others all over the country in offering our strength during this time of healing and offering our condolences and support to the families affected. Dear Mr. [REDACTED]

Thank you for taking the time to contact us. These have been very difficult times for South Carolina. Our hearts and minds remain fixed on the nine families and the communities shaken by this tragedy. Their strength set a powerful example for us all. Even in the midst of our grief, South Carolina set about healing – not by talking about issues that divide us – but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our knees in prayer. We came together as a state, as a unified people, to honor those we lost and to begin this healing process. We've also come together in acknowledging that our past and events of our past resonate differently among us. For some, the Confederate flag represents a part of our ancestry and heritage. For others, the flag is a deeply painful reminder of a brutally oppressive past. As the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to make a statement about moving the flag from the Statehouse grounds. This is a moment in which we can say that the flag, an integral part of our past, does not represent the future of our great state, and that by removing a symbol that divides us, we can move forward as a state in harmony. The time has come for us to set the flag aside as markers of our history so we can set our eyes on the great promise of a united South Carolina. Go forward with my very best,

I do understand your difficult position and the implications. Had this tragedy not occurred, we wouldn't be having this debate. The Confederate flag does not represent slavery as so many would want to believe. It is a part of our Southern history, like it or not, a good deal of which was South Carolina. A very proud state indeed, It is yet another history pc move. What do you say to all of the men and women who sacrificed their lives, livelihood, families for their country. Do they not mean anything? Are their deaths for naught? Why is it the Southerners carry all the quilt and wrongdoing of the past? It is truly a sacrilege to ignore those brave individuals. Sure mistakes have always been made and pulling actions out of context is not a way to learn. Study history and learn from it. That's it. The Confederate Flag is not the enemy! Please don't give in.

Governor Haley. My heart as well goes out to those good people who so senselessly and tragically lost their lives to a hateful murderer. My heart breaks as well for those families who are left to grieve, but my point is this. Are you honestly saying, taking down that flag will somehow prevent something like this from happening again? Or are you honestly saying that if that flag had been taken down months earlier before this tragedy happened, it would not have happened? If that's how you think, then can we say that you and your administration are somewhat responsible, because you didn't act sooner and remove that horrible thing before the tragedy happened? NO all this will accomplish will be to cause even more tragedies, as we have already seen from the church burnings. If politicians could only understand that an ounce of common sense goes a lot farther than a ton of appeasement and caving to pressure from this group or that group the world would be a little better. The mighty politicians absolutely MUST be seen as the "GREAT UNITERS" when in truth you are doing more to divide your state and our country than you will ever admit. As I said in my last communication, the Stars and stripes, the USA flag flew over slavery much longer than the confederate flag did, so I ask you this. Will you begin the process of taking it down also? I WOULDNT BE SURPRISED!

Subject: Re: Thank you for contacting the office of Governor Haley

I find it amazing that this didn't become an issue until the shooting.

I'm deeply saddened by that senseless act of brutality and my heart aches for the families of the vic flag shot no one and removing a part of the history of SC will not erase that.

That flag should serve as a reminder that Federal intrusion into State's rights can not be allowed to

If the people do not stand up to this intrusion, we are doomed to repeat the past over and over again

Both Blacks and Whites fought under that flag and for what it truly represented and to try to negate

and sacrifice to appease the Liberal Left is an insult to their memory and to the history of the South

I'm very sorry that you have elected to surrender SC's history.

Sincerely,

LL [REDACTED]

Regarding: For some, the Confederate flag represents a history of their ancestry and heritage. For others, the flag is a deeply painful reminder of a brutally oppressive past.

There is not a sole alive today who ever experienced what you refer to as a brutally oppressive past. Should I remind you that the very first slaveholder in this country was black?

Get off of this Progressive/Communist thing of destroying the history of the great country, but that's what the Progressive Communists always do.

Guess I know who you really are.

Subject: Confederate flag

Governor Haley,

Stalin, and Hitler removed and re-wrote parts of history, slowly and with a strategic plan to take the proud heritage of their nations away! They did it slowly and as long as the people did not complain, they got away with it. Replacing history and heritage with their own version, to instill hatred and to make their citizens turn a blind eye to what was going on for the betterment of the country. In the end it made fellow citizens turn on each other and gave them reasons to do such horrible things to their society. Stalin alone was responsible for an estimated 20 million not including the 20 million who died in WWII.

I have been watching and there has not been a call by one of the family members to remove the battle flag of the confederate. It is part of our history our heritage, honoring the men and women both black and white that fought and died for their way of life. Governor you can not change that facts nor should you be involved in re-writing history, it is wrong no matter what the reason.

Yes we had slaves, it was legal and a way of life but the people who fought and died should be remembered and not cursed or let to be removed from memory. As a country we fixed the problem and we should be proud as a people and as a nation, the confederate flag should be a symbol of our success in doing so. Don't let the interpretation of a few let you go down as someone who re-writes history. If we don't learn from history or forget, we are destined to repeat it.

Dear Mr. [REDACTED]

Thank you for taking the time to contact us. These have been very difficult times for South Carolina, but our hearts and minds remain fixed on the nine families and the communities shaken by this tragedy. Their grace and strength set a powerful example for us all.

Even in the midst of our grief, South Carolina set about the process of healing not by talking about issues that divide us but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our knees in prayer. We came together as a state, as a unified people, to remember those we lost and to begin this healing process.

We've also come together in acknowledging that certain symbols and events of our past resonate differently among us. For some, the Confederate flag represents a history of their ancestry and heritage. For others, the flag is a deeply painful reminder of a brutally oppressive past.

Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to make a statement about moving the flag from the Statehouse grounds. This is a moment in which we can say that the flag, while an integral part of our past, does not represent the future of our great state, and that by removing a symbol that divides us, we can move forward as a state in harmony.

The time has come for us to set the flag among the other markers of our history so we can set our eyes on the great promise of a united South Carolina. God bless.

Dear Governor Haley

There have been many reminders of the past in the history of our Great Country. The Confederate Flag being one of them. It's time to put that reminder of history in a museum about the war that divided our country.

The United States prevailed over the Confederacy and it's more than time for all of us to be Proud. Whether a Southerner or like me a Oregonian We are Americans First.

Sure hope the flag of the past is treated for what it is a symbol of the past and the heritage it represents our young people.

Thank you for your very courteous reply but not sure I am agreeing with you on a symbol that causes others! A symbol born out of individual rights and states rights from a over oppressive government very similar to what we have today. When we start banning things in this country that offend a few, people are entering a very slippery slope and I am afraid it will open Pandora's box with today's Lit whiners. I strongly urge you to reconsider your actions, not just for this symbol, but for all symbols: history that represents something to someone!! The KKK and other groups have used the Nazi flag many times in their idiotic rants and gatherings. If we start this, where will it stop? The entire US is watching South Carolina right now, and our actions may start a whirlwind of injustice and prejudice many symbols in this land that are "OUR HISTORY". I honestly wish that our elected officials and as the NAACP could concentrate their efforts on "real" problems that face African Americans and instead of a flag. Please read. It would be great for people to educate themselves on history.

I whole heartily agree. However you did not address the second part of my letter - It addressed the Slave related Items and Slave Quarters that WE spend monies on to restore and place in our public areas. I don't want the people of our great state to continue to have a ONE sided view of our past. I am so PROUD to be a Sandlapper and am very much in sympathy with the families of Charleston and they are in my prayers. Yes I voted FOR you and Yes I agree with your Action - But I would like to see some way to appease all of our citizens Good Luck -- thanks for the response

Dear Gov. Haley,

Thank you for your response. I am very sorry the crazy kid committed the crime he did. I am also hate groups and gangs have abused the Confederate flag. However, the Confederate flag does not r hatred. It has been flying for 154 years and is a part of our history. I have a question for you, wha kid had draped himself in an American flag and committed the exact same crime, would you be try down the American flag and eradicate all historical ties? The answer is NO. The flag had nothing action of the crazy kid.

There is current action going on throughout the U.S. to abolish Confederate history including remc statues, renaming streets, removing the emblem of the Sons of Confederate Veterans organization, of demolishing Confederate cemeteries and making it illegal to even display the Confederate flag. politicians and the media is in full force and makes no sense to me. This is premeditated. If what about the flag regarding offending others, then why wasn't something done sooner? I don't recall y else saying that the flag should be removed, until now. Why?

I know you waited to respond to my email hoping that the SC house and senate gave the green light flag down (and the vote was today). Which they did. Again, thank you for your response. I know and you didn't even write it. I don't expect a response as much as I would like one.

My very best,

Mike Furr

Dear Mr. [REDACTED]

hearts and minds remain fixed on the nine families and the communities shaken by this tragedy. and strength set a powerful example for us all.

Even in the midst of our grief, South Carolina set about the process of healing – not by talking about divide us – but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our prayer. We came together as a state, as a unified people, to remember those we lost and to begin process.

We've also come together in acknowledging that certain symbols and events of our past resonate among us. For some, the Confederate flag represents a history of their ancestry and heritage. For flag is a deeply painful reminder of a brutally oppressive past.

Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to statement about moving the flag from the Statehouse grounds. This is a moment in which we can flag, while an integral part of our past, does not represent the future of our great state, and that by a symbol that divides us, we can move forward as a state in harmony.

The time has come for us to set the flag among the other markers of our history so we can set our great promise of a united South Carolina. God bless.

My very best,

Nikki R. Haley

Subject: RE: Thank you for contacting the office of Governor Haley

Dear Governor, Appreciate your reply. Taking down the flag is appeasement. Taking down the flag to do with the true issues that need to be resolved. Caving to the demands of those who want the flag is a cheap, lazy, ugly way for juvenile-minded, badly educated, irresponsible excuses for citizens to for their problems upon another group of people as a matter of racial hatred. Did that work in Fergus Baltimore? Detroit and Watts in '65? Newark? Has that ever worked? Why are you listening to this? They want honor for no honor given. They want honor by taking yours. They want honor by taking the State of South Carolina and her people, for no honor extended in return. Appeasement is always or is not about pacifying racial tensions. The flag is only the beginning of tyranny -- government appeasement who are being driven from behind to ignite racial hatred in the streets, the government protecting the majority of the people of the State caught in the middle with no where to run and no leaders to turn for permanent resolution of the challenges. What you are doing is, in the long run, going to make things worse and not alone for the citizens of South Carolina. I thought an oath of office was to protect the well-being of The People first, not oneself...? I thought all the people of South Carolina were citizens first regardless of race given equal protection of the law? You would, by taking down the flag, effectively raise the unequal legal status of one group of citizens over another as a matter of race. You are, by taking down the flag, the exalted status of the citizen-soldiers of South Carolina, some of whom were black, who shed their blood for what they believed in: freedom from tyranny. By removing the flag you are saying to the mob that those who died with them that these honored dead, who cannot speak but through the banner they proudly served under, are to be condemned with heinous, ugly, racist labels and tarred with a false history of their lives. They cannot defend themselves against, that their "whiteness" in service to South Carolina during the war was a crime against the black race which today must be expunged! Let us begin with the flag! This is an insult to their service, their history, their courage and their sacrifice. You are surrendering the ground of State history to those morally unfit to dig their latrines! The misfits and malcontents deriving satisfaction by retiring this banner of honor are not demanding this so their anger may be appeased for the rest of their life. In addition, they deliberately lay blame so as to not be required to show personal responsibility for offering a solution to the problems they have brought to the public arena. Taking down the flag will only rewrite history. If you want to live in a peaceful, prosperous future, you must first consider how you got where you are today. Those who insist on destroying their history rather than learning from it will soon be in the streets demanding blood and fire. Or, wringing their hands and saying "Why, oh why? I don't understand them what they demanded." We have been generously giving "them" appeasement since 1965. Have we better citizens? Has it improved their lot? Has it motivated them to get off their dead backsides and do for themselves something which their slave ancestors would be proud of? When Lyndon Baines Johnson was president, he received an imperious demand from President Charles deGaulle of France through Secretary of State Dean Rusk to immediately remove any and all presence of America's military from French soil. His reply should be remembered well, for French and American history are entwined by the blood of conflict. "Please tell Mr. DeGaulle we shall comply forthwith. Then, please ask him a question." Rusk replied to the President. What is the question?" Johnson: "Ask him what he wants us to do about the graves." It is the flag. Brave hands held that flag aloft under fire. It's about who is sleeping in Confederate graves. The true history of South Carolina written. Shall we dig them up? Shall we remove them from the place of honor?

eradication of all white presence from South Carolina. History, the living and dead, all evidence of South Carolina must be eradicated. And you would cave to this. Ask them! People are watching and gorge themselves on the hatred if this issue breaks down into street riots as in Ferguson and Baltimore. What appeasement begets. History does not lie in this matter. What will the mob demand from you and at whose further expense will the next "solution" become a burden? When will enough be enough fast for honoring State history, honoring those who gave their lives for her; refuse to accept appeasement by creating more hatred, more division. You resolve nothing when you treat violent children while ignoring the vast majority of law-abiding citizens, many with deep roots in South Carolina, watching looking on in disgust because they know what's coming next. Become the next Maggie Thatcher. Stay on the ground. Don't coddle and pet these misfits. Grow a pair. Become the leader you were meant to be. The way by personally removing the flag from the pole. Subject: Re: Thank you for contacting the office of Governor Haley

Office of the Governor, Thank you for answering my open letter. What you have answered mirrored have said in your news brief several weeks back and has merit, if it is an opening toward the dialog come. I acknowledge all of this as a genuine effort on your part, but... As you should well know, this a beginning. The real work is in the surfacing of what the whole of the confederate myth of reconciliation about, something that even our history books have given into misleading us about despite what the available research and documentation tell us. We will not move forward without the truth (and then reconciliation is possible)... as I said in my letter, no psychiatrist would ever not know that without their is no "moving on" in any genuine sense; unless, cynically, you mean to say that "on your watch that "you can do". Are you not up to the challenge? Are you prepared to leave what remains doing What a chance missed that would be...

The Richland County library system is ready, for example, to help in this and is well placed and the public institution to facilitate discussions and presentations of SC's past and what the truth is; and the obvious truth for all in all of this inquiry, if not acceptance by all of what that truth reveals. Time to maybe and truly release all of that energy for good and progress.

Sadly, I do not think we can count on our media to do the job well and correctly, although some will try, but they can support what the library can do and help to spread the word for it. I do feel that they become beholden to interests that might not want to participate in this dialogue. I would hope that public office of this state would not also be so beholden?

So, I ask, again, if you intend to open this dialogue (and, yes, wound) and husband it along toward there might be genuine reconciliation... lets say, for your and my children's sakes? If so, as you say move forward. If not, we're kidding ourselves, again, about this and we will go forward... some... around sideways... some... and then, maybe backwards. The farther people get from truth the more the gap with whatever serves to whomever fights for it.

Remember that in South Africa it wasn't just about black and white; it was about "colored," too, as those in this country, Madame Governor, and even if there weren't many around during the civil war their future to be? It really is about "all of us", isn't it?

I do sincerely hope that you intend to truly lead us into this discussion and not just help us to "emerge thru the recent tragedy". Please, I mean do disrespect by that. But, in truth, that isn't so much, is it? A simple truth was that this young man was in reality a "zealot" and acted much in the way that "born leaders" can act in their newfound fervor. I have seen it the work I have done in Africa and, I daresay, so will remember in the country of your grandparents. He acted simply with a more direct and direct outlook... crazy... although, he might have made himself "crazy" with his narrow zealous understandings. The more of his kind coming-up and in the wings, one would expect, and what they do is very much in line with what our leadership takes us toward... not so different to what your own ancestors went thru with independence and partition, if I have my history correct. (I also worked for a number of years in Pakistan.)

Best hopes for your courage to act with this, Madame Governor, I believe you can find it and we will need it, what with this opportunity that we cannot let pass.

Cheers

dear Mayor,

the flag has Nothing to do with hate. that is in a person's mind. there are a majority of folks who are in the past, it is way past time to grow up and start a new, and good life.

i came to America Legally, a long time ago. not once did i ever think the Confederate flag was appropriate, i didn't go through the Civil War, but that was years ago, time to rebuild, again, leave the flag behind. thank you

Governor: I know you must think you are unifying when in fact, you have divided our state and created your wildest nightmare. My family lost and offered as soldiers, over 60 native South Carolinians to aggression and never fought to defend Slavery brought to us, as history shows us, by Native Africa with mercenary traders for profit much like is occurring with Bako Haram and other locales today. with any respect due, no historical ties to SC thus have no blood relatives who died and served to a first generation, to achieve what you have achieved. Do not let their supreme sacrifices be in vain as leadership now turns and divides us.

No personal goal for any other office or milestone in your own life is worth this abandonment to our state. Many of the counties of SC are named for civil war leaders who led us through our darkest days of war. They were our true statesmen and defenders of freedom who lived, if they did survive, a pitiful life thanks to the Northern atrocities perpetrated on our citizens.

With all the woes in our state and cries of lack of money, your leadership would be much better spent on our state's poverty, high crime, domestic violence. our terrible roads, our appalling child abuse, our elderly too high College tuition, our mental health programs and lack thereof, our outrageous property taxes, our public education, our greedy power companies and cooperatives, our family destruction. our poor parks and historical monuments, our graft and corruption in elected offices as evidenced in our history. Trust and other sting operations including ethics violations in our statehouse leaders and staff, our Christian state, our overreaching by the courts and judiciary, our marriage and family crises, and the mongers and real racists you welcomed into our state by leading the charge to challenge the venerable honorable battle flag that accompanied many of our soldiers ever since into battles for our freedom. You have led the tragic charge to dismiss and dishonor them. All of them and thus, we their descendants Carolinians since before the American Revolution, shutter at the evil and scapegoating you have unleashed as champion. Our State and generations are harmed because of it. You have taken the politically expedient not the harder, honorable course.

I wanted you to succeed as a woman politician as I once was SC career woman of the year and SC woman of the year, before you were ever politically active. Now, I see how tragic was my support for you for you have now embarked us on a path into darkness and division. You have now not only cost an incredible amount of money in gathering the legislative assembly for such as this but destroyed our tranquility forever. This is not the leadership I herald. You have allowed insurrectionists and Agitators to put you into undeserved headlights, boding poorly for my South Carolina.

You should hang your head in Shame.

Sincerely,

Kathleen [REDACTED]

Unfortunately, all of the events that took place after the 9 innocent Christians lost their lives has caused anger and aggression among this state. I am very disappointed in the actions of our government. There are many other things that need to be addressed, other than a flag. Instead a silly platform was chosen for the state, and accomplished just the opposite. I am a Christian and I try to live a Christian life. It really bothers me that politicians are more concerned with the popularity contest and trying to change our country to please everyone, leaving Christians the minority! If you would all stop and think, this country was based on our morals and values. I look around everyday and know that the end of times are near. God wins in the end. No matter what I know where I am going with a clean conscience! Can any of you politicians say the same? I hope you have a blessed day and a good night's rest! Sincerely, Lisa T. Subject: the American Flag

To whom it may concern. It seems you might have misunderstood my letter. I relatives fight and die sides during the war between the states. My question pertained to the American Flag. My father die it and my brother ended up dieing as the results from defending it. I too was proud to-do my part. Now then and has proved to be true now they want to take down the American flag. Will she fight to keep (the American flag) flying high or will she cave to removing our nation's flag?

thank you for your reply Mrs. Haley, i am quit certain you mean well by removing our confederate black and white men fought and died for. i am sure you think that this will bring a closure and a pe racial tension, i would hope that you are correct but regretfully i think you are wrong. just look at tl black leaders, that will not be enough for them, they will stir the racial pot more and more, it is hov there living. the more you give them the more they will want, the flag coming down will not be enc want to erase our whole southern history and make money in the process. i will tell you the voters are sick and tired of politicians not standing up for our rights, we would like to have someone with time values and backbone that is not afraid to go against the grain because they think it would be th to do no matter what the consequences! i guess you think in this case the right thing to do is go aga southern history and cave to the likes of al sharpton, so be it Mrs Haley. i wish we had a man like I Reagan, or a woman like Margaret Thatcher back on our side, but i guess those days are long gone. old dinosaur that is living in the past. thanks for taking time to listen sincerely Michael [REDACTED]

Governor,

I truly believe that you are so far removed from the reality of the situation that nothing will change on this volatile issue. The flag that you have such hate for is selling in record numbers. All Confed are selling also! You have only succeeded in moving the flag from state grounds.....now we' constant reminder of your actions in our homes, cars and places of work every day. You have deni a say in this important issue and that will cost you and the other traitors on election day!

To say that South Carolinians are now "hugging our neighbors" may feel warm and cozy to you bu been hugging our neighbors for many years now, both black and white. What you have done is div peaceful, loving citizens of South Carolina, with your political wedge of hate. When we, as you sta ones we lost", why do we have to dishonor the ancestors of so many of our citizens by removing rr ago dedicated to their bravery and courage?

What of the Viet Nam vets.....are we to dishonor them too since that war was the most unq we've ever been involved in? How long will it be until the U.S. flag is removed.....after all any agree that it stood in defense of slavery far longer then did the Battle Flag. While you now think th never happen, we also never thought that our heritage would be taken away from us for the sake of "politically right thing to do."

Our country is in a downward spiral and is in a self-destruct mode, and you and the other haters ha unnecessarily added fuel to the fire. If you believe that you are better qualified to make decisions t of the state are, it is time that you consider resigning your office. For if power is centralized in gov no longer a democracy.....and that's where we are now.

I am very disappointed that you have taken this horrendous tragedy in Charleston and turned it into a try to further your political career. You obviously don't care about the people of South Carolina any more than you did a few years ago before you became governor and you assured me that you would stand up for me. I wish that you had some of the compassion that the people of Charleston showed a few weeks ago. You choose to try to divide the state by saying the flag represents hate not heritage. You are not from this state and your forefathers didn't fight for states rights. Now you are turning your back on the very people that elected you to office. I only hope and pray that you can live with yourself for doing this horrible injustice to the people of South Carolina. If you would like to discuss this please give me a call.

Dear Governor Haley,

Thank you for your reply.

I am very disappointed that you would "cave in" to a certain group who is using this tragedy to force their opinion on everyone else. You speak of " - not talking about issues that divide us " at times such as this, but the faction forcing you and others to remove the flag sure are using this tragedy to do that exact thing.

I haven't seen anyone waving the Confederate Flag after this incident and praising the demented person who committed this terrible act but the other side sure is " waving " their flag and blaming those of us who support the flag for being racist.

What are you going to give up next ? If they demand that your state remove the name SOUTH because they think it relates to slavery are you going to sign a bill for that ? Are you going to ban cotton farming because it reminds someone of things that happened over 150 years ago ? Where does this end and when do we stop the ridiculous over use of political correctness?

I'm proud to be White but I dare not say it out loud without fear of reprisal yet I am the one called Racist.

There's Black History Month,Black Entertainment TV, Miss Black America Contests,Black Colleges and tuition grants or programs for Blacks Only but no one calls that Racist.

There are a large number of Black neighborhoods in your own state that YOU..the Governor, can't walk through by yourself because you are not Black. Can you tell me that's not Racist ?

The Black community has you and too many others so scared of them that you are making decisions out of pure fear and if you think they...yes THEY.. don't know that you are afraid of them then you are living in the dark..or soon will be.

I am sincerely hoping that you,yourself, actually read this email and that the previous reply you sent to me wasn't just some canned reply sent to all of us that voiced our opinion concerning the keeping of the flag.

I am also hoping that you will give me the courtesy of a personal reply to this email.

Sincerely,

Larry [REDACTED]

Thank You for kindly replying to my email. I can see your point for all this believe that now the fl removed and added to our history museum. This is the 21st century and we should not look back in forget it as history cant be changed. We should move on and look at our future for everyone. Only trouble with is television shows should not be removed just because they may use the flag and not offend anyone but for amusement and they are all part of our history too. You cant rewrite history our past. My hometown removed a banner over main st had to be removed was obvious to be rem Greenville has the blackest dirt and whitest people was removed many years ago understandably, b changed as history or rewrote.

What you people did today, (voted to take down the flag) is one of the biggest acts of cowardice and even worse, political correctness in my life time and I was born in the early 1940's. The Civil War had nothing to do with slavery and we have let the liberals rewrite history to make people be it did. I recently starting asking people to give me a reason to vote for republicans again after watching cave, after cave, after cave since January of 2015. Guess what, I did not get any reason to vote for them. Here is what I heard. They are cowards, liars, wimps, no spines, no manhood, corrupt, sneaking, two faced, obama's best friends, clueless, stupid, no agenda, pathetic, disgusting, scared of their shadow, traitors, could not find their ass both hands, and the winner is, RINOS.

This does not bode well for the RINOS and wimpy little republican party in 2106. I made my mind up and have no reason to vote for a republican in 2016. All will be write ins like Yosemite Sam, Foghorn the Leghorn, Pepe Lepew, and other colorful cartoon characters.

Russia and China are laughing their rears off at the wimps, cowards, and especially the political correctness and just how weak the American people are. I will never forget Nikita Khrushchev banging his shoe on the table at the UN in the early 1960's and telling America he would bury us and never fires a shot. I must say the man had foresight and the time he was talking about is just before us.

As my best friend and UDT Marine, the forerunner of the Navy Seals that passed away a few years back would say. MORE MEN HAVE FROM FEAR THAN TIME. ARE YOU GOING TO LIVE ON YOUR KNEES OR DIE ON YOUR FEET.

Thank you for your response, but what does one thing have to do with another? Are you going to try to erase everything that is a part of history? That is not the governments right. My heart breaks for the families and loved ones and for those who actually died in S Carolina, but that was one evil sick person that did not want to let one person erase history? Do you also blame the guns and not the thugs that use them? The New York and we fly the confederate flag and we will continue to do so. Government needs to stay out of our lives and not try to change history

Dear governor Haley (and/or to those answering for her),

I appreciate all you are doing for the great state of South Carolina, and I can fully understand the situation is necessary at this time. It's a gesture of good faith and good will to a hurting community. I guess it gives many some comfort that an "action" of removing a flag was done, although I'm just amazed at the issues are swept under the rug (gun regulation, mental illness, security, etc.) and certain groups in the state are sadly using this as a matter to incite division and start a "southern cleansing" process of now all this Confederate! As a "yankee" living in the South, I'm convinced that both sides on "the flag issue" are people who believe that they are right. It's just sad that this is now front and center stage, and the rest are neglected yet again. but that's politics sometimes, Again, I fully understand your position as going on the tight rope you must walk to keep the peace.

Warmest regards and peace and comfort to all in your state,

Jim Fowler

Ok but lets not forget we need something speak out that slavery will not be mentioned in the state i they feel it means to some. I do not mean black and white there are some blacks that understand an the flag is raciest. I am from the north and have ancestors who died fighting against that flag but ha it should be removed, what are we going to remove next.As a conservative you need to start remov and there illegal children before they return to schools that are overcrowded. You could be our Doi Trump the only real Republican candidate running who feels the illegals are a problem. Trump is g hammered because no one has ever heard a real conservative speak. This needs to be your next tasl am sure other states will do if someone shows we care about our state.

Dear Mr. [REDACTED]

On the evening

of Wednesday, June 17, 2015, the world witnessed a senseless tragedy at Emanuel A.M.E. Church beloved Charleston, South Carolina.

Heartbroken,

words fail us as we seek to make sense of this unexpected loss of life at one of our places of worship. We will never understand what motivates anyone to commit such a vile and hateful act, but our hearts and minds remain fixed on the nine families and healing our state. The families' grace and strength set a powerful example for us all, and the response of the people of South Carolina helped us strengthen our love for each other.

Even in the

midst of our grief, South Carolina set about the process of healing by hugging our neighbors, holding vigils, honoring those we lost, and falling to our knees in prayer. We will continue to come together as a state, as a unified people, and never forget those we lost.

Michael, Rena,

Nalin, and I join countless others all over the country in praying for strength during this time of healing and offering our condolences and support to the families affected. God bless.

My very best,

Nikki R. Haley

Dear Informal Response Letter to all who have a comment for or against because we have made up our mind,

I am an American and I was born and raised in South Carolina, I have lived up north for a part of my life, but my ROOTS are here. It really really really for lack of better words PISSED me off when you answered 2 of my letters to Haley with the same response, Seriously do think we in the South are so stupid that we who voted for you will continue to respect you when what we get from you is a letter every other resident who writes to you will receive? Why can't you answer our valid questions? Don't we who put you where you are sitting deserve a proper response to our issues not just your views, which as I might add were not your views when I voted for you. (The Fork didn't make me fat, just like the Flag didn't cause the death of 9 innocent people)

I lost my son January 30th and today is his Birthday, if it wasn't I would be putting this all over the internet, but for me I have experienced my worst day when I lost my son and today was the best day of my life and the best thing I ever did in life and I will not let your selfishness over shadow him.

So I have sent it to a friend and hopefully he will do what he can with it and in a few days I too will find away to expose you as when a letter is written to the Governor they should take those issues from voters seriously and respond in the proper manner, That was not done.....

I know I am wasting my time writing this as I will surely get the same 3rd response form letter from you, so don't bother as my SPAM catches it anyway, so even it knows it is trash and not worth reading.

Dear Governor,

I understand and appreciate your position on the Confederate flag. I truly hope and pray that its removal from the Capitol grounds will unite all of South Carolina's citizens. Being half Japanese, I have no hatred for it, but it does sadden me to think that southerners are still stereotyped, regardless of our level of education. I would like to offer a compromise for consideration. As I am certain you are aware of, there were many iterations of the Confederate flag, which may may not instill bitterness. Perhaps one of these flags would be suited for the memorial. Whatever your decision, South Carolina will always be in my heart, and I will move on from it. God bless you as well.

What you people did today, (voted to take down the flag) is one of the biggest acts of cowardice and even worse, political correctness in my life time and I was born in the early 1940's. The Civil War had nothing to do with slavery and we have let the liberals rewrite history to make people be it did. I recently starting asking people to give me a reason to vote for republicans again after watching cave, after cave, after cave since January of 2015. Guess what, I did not get any reason to vote for them. Here is what I heard. They are cowards, liars, wimps, no spines, no manhood, corrupt, sneaking, two faced, obama's best friends, clueless, stupid, no agenda, pathetic, disgusting, scared of their shadow, traitors, could not find their ass both hands, and the winner is, RINOS.

This does not bode well for the RINOS and wimpy little republican party in 2106. I made my mind up and have no reason to vote for a republican in 2016. All will be write ins like Yosemite Sam, Foghorn the Leghorn, Pepe Lepew,

Russia and China are laughing their rears off at the wimps, cowards, and especially the political correctness and just how weak the American people are. I will never forget Nikita Khrushchev banging his shoe on the table at the UN in the early 1960's and telling America he would bury us and never fires a shot. I must say the man had foresight and the time he was talking about is just before us.

Governor, This response is a political dodge at best. You were elected by the people of South Carolina to represent the people of South Carolina. For you and the legislature to make such a proclamation without the voices of a probable majority of South Carolinians into consideration is not public service, it's not. You've been more than accommodating in listening to flag opponents, but having spoken to thousands of supporters, I can assure you that most of your state feels abandoned, neglected and betrayed. We understand you are a first generation South Carolinian and will never understand the loyalty those of us like me with years of family history in South Carolina have to that flag. You are failing to serve your people by succumbing to the pressure of liberals and federal pressure, and the people see it. You have failed to seize the opportunity to embrace a strong response after a tragedy to rip our state apart and set race relations back sixty years. Do you possibly think setting South Carolinians against each other over such a deeply rooted issue would bring us together? It has torn us asunder. Please respond. Thanks for the computer generated talking points that do not drip with one ounce of sincerity. You what politicians do best. Divide!!!! This state had already come to together to mourn this devastating heinous crime. You on the other hand divided it in one press conference. I believed that you were a type of politician but was obviously wrong! You are not a champion of the people of the state Carolina. I predict that this will be the end to any hope you have of a political future within this state that you will make happy with your support will never vote for you while this decision will hit at the heart of your base constituency. If you lose 10-15% of your base then you are done. How this will bring peace is beyond me. How do you explain to the people who support the flag staying up that this is going to feel better? Please be advised that Jeffrey Clegg and Christine Clegg will no longer support you in political endeavors you may explore. Please take me off any of your mailing, email, phone list, etc solicit my vote. It will not happen!

Thank you for your reply regarding the flag. Unfortunately you display a level of gullibility which The racists and hate mongers who hate the Confederate Battle flag have trivialized the Charleston using it to attack the Flag which had absolutely nothing to do with that terrible tragedy.

The Flag did not cause a problem and removing it will not solve any problem. You can not seriously stop there. This is only the beginning. The monuments are next, then the buildings, the street names, eventually everything Confederate. If everything which is offensive to someone is removed we need the U.S. Flag, the Bible, the Koran and others. They have all been misused at one time or another. Speaking of offensive, it is offensive to me to hear people speak disparagingly of the Flag and to talk of removing it though it is something shameful. Does it matter to you that I am offended?

Please do what is right and leave the Flag alone.

Thank you,

Their grace and strength set a powerful example for us all. Even in the midst of our grief, South Carolina set about the process of healing – not by talking about issues that divide us – but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our knees in prayer. We came together as a state, as a unified people, to remember those we lost and to begin this healing process. We've also come together in acknowledging that certain symbols and events of our past resonate differently for us. For some, the Confederate flag represents a history of their ancestry and heritage. For others, the flag is a deeply painful reminder of a brutally oppressive past. Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to make a statement about moving the flag from the Statehouse grounds. This is a moment in which we can say that the flag, while an integral part of our past, does not represent the future of our great state, and that by removing a symbol that divides us, we can move forward as a state in harmony. The time has come for us to set the flag among the other markers of our history so we can set our eyes on the great promise of a united South Carolina. God bless. My very best,
Nikki R. Haley

I'm disappointed in the decision to remove the Confederate flag from the Capitol grounds. I feel that I've done a great job as Governor up until this point. I know that it is a topic of heated debates and that there are people on both sides to some. But I'm offended that you would remove it. What happened at that church was tragic and obviously a mentally ill person would shoot those people. But it wasn't the flag that did it, just as it wouldn't be a fault for being Governor of South Carolina at the time. Your call to remove the flag has created an issue for all those wishing to do away with our history. And they are jumping on the bandwagon as fast as they can. I wish that you would rethink this issue or possibly come up with an alternative. Our history is being thrown away too quick enough. I know you're in a tough position, and you're trying to keep this from being a "South is racist" issue. But I feel that giving in only creates a platform for others to push their agenda. Thank you.

Dear Nicki Hailey,

I'm contacting you for your assistance. I'm 19 with a family of 4. My younger brother, Kirkland, my sister, Rachel, and my mother, Crystal. My mother is the only support of the family and she lost her job a few months from lay off. We have government aid but the decreased our aid to \$100 a month. No where to provide us. I've been looking for a job and my mom too but we won't be hired. Forgive me but all changes seem to have happened after the shooting in Charleston. Is it because of our race? I hope you can help. I humbly beg for your assistance. We can't survive with the current aid they have changed on us.

Thank,

I respect the extremely difficult position you have. The shooting that took the lives of the church fo event. White or Black they are still human beings. I am from a prodominately white family raised i area mostly on a small farm. I have Black friends and young family members. As a child I was taug don't like someone because of their attitude you attempt to avoid or get along peacefully. At NO tin taught to seek out someone with violent intent. Your job is to make everyone happy and that is a ne feat. I consider myself neither republican or democrat. I'm an American. I pray that in the coming d families find peace and are able to move on with a good life. As for the person that performed the s hope is that we as a society learn from his mistake. We are putting to much emphasis on symbols as people are saying caused this. I'm sorry but I can look at a Nazi symbol and not relate it to hatred bi symbolize it as suffering and confused era. We are all Americans and in some ways foreigners unle native Americans such as the Indian tribes. God be on your side Governor as you hopefully work tc different races together. Thanks for your time.

Although I have never lived in SC I always had great respect for Governor Haley. until today. A re informed me that the Gov. will meet with shartpton. a low life criminal who feeds off the kind of pi Governor will provide. This great country is getting less great at a rapid pace due to the lack of true leadership -- the kind that respects the law as it was written and who is not afraid to stand up for us common people. The future looks bleak unless a truley strong leader emerges soon.

Governor Haley,

Ma'am,

I am writing in response to your call to remove the Confederate Flag from capitol grounds. I understand the pressure to act so in the wake of the Charleston shooting, but I implore you not to for the sake of a unease with the growth of federal government overreach. To many of us, the confederate flag represents a challenge to federal power, not racism (which is what many pundits want you to believe). That flag represents the restoration of the original intent of the founders that demanded a limited government for the people. The issue in 1860 was NOT slavery, but a rejection of federal encroachment on states' power. Slavery was merely the issue around which the unprecedented action of secession was adopted to provide an economically devastating mandate. All patriotic Americans believe that racism is wrong, and that all Americans are equal under the law, but that confederate flag reminds us all that the federal government is limited in its powers. As a current military member (who had the privilege of serving in Charleston) I know the man or woman is measured by his/her performance, not their race. Yes, slavery was an unjust part of American society, but so are federal pronouncements that dictate what is morally right and wrong. I stand between me and my God. Stop feeding the division in this country (fostered by this president) and give me the occasion to highlight that we are all Americans, wedded to the idea that we are all responsible for our own fortunes and misfortunes, and that the Confederate Flag is a symbol of autonomous decisions made by the men and women who felt the federal government overreached. I did not volunteer to serve a country that could not protect its citizens.

represents no one but the psychotically deranged..DO NOT equate us patriots with that mongrel. I am not
by the shallow thought processes of the politically correct mudslingers that seek to demonize Amer
injustices wrought by people we could never have known over 150 years ago. Help me, and my fellow
our country back. E pluribus unum...

About That Murder in Charleston.

Benjamin Garland

Daily Stormer

June 22, 2015

Stock photo of welcome to Charleston sign. SC USA.

Many of you reading this right now are probably wondering why I made such a sloppy typo in the article.

Surely I meant to say murders. instead of murder. right?

What are you a racist?

Or maybe you just haven't heard about the particular murder that I have in mind.

Or maybe that's because this particular murder victim was a White person?

Or maybe you have just forgotten about this particular White murder victim?

blackonwhitecrimeOpen your eyes. White man.

cold blood - just as we here at Daily Stormer reported approximately 2 weeks ago - "allegedly" by the Black people:

Charleston County Sheriff Al Cannon says four men may face murder charges four years after 5-year-old Allison Griffor was shot and killed during a home invasion in West Ashley. He identified them by hanging their photos on the wall: Phillip Moses, Franklin Glover, Shyrome Johnson, and Lezell Leonard Grant. Johnson was arrested on Thursday. His bail was set at \$200,000 on Friday at a press conference Friday afternoon. Cannon said Shyrome Johnson was interviewed as early as possible by investigators looking for answers into Griffor's shooting death.

allisonblackonwhitecrime What about me? Don't I matter? Doesn't anybody care about me? If you're not familiar with this story, then I want to ask you: Why not? Why is this poor, innocent, dead White girl not a household name, like the aggressive thugs Trayvon Michael Brown who were justifiably and provably killed in self-defense? What if it was the other way around, with four White men "allegedly" murdering a 5-year-old Black girl? I'm confident that you can use your imagination with that.

7988255_G_thumb The "suspects."

Good policy depends on understanding cause and effect. The battle flag did not cause the shooting at the Charleston church. The flag is the heritage of many people. The Constitution did not say whether states could leave the union, and many believed that this choice, the Constitution, belonged to the states and the people. When the people of the South tried to exercise this choice, the remaining states sought to return these states by force. The Constitutional questions are only academic today, but for the soldiers of the southern states on their homes were real. They fought gallantly to defend their homes, not slavery. The flag under which they served should remain a source of courage.

Dear Governor Haley,

Over the past few days I have frequented my Facebook page. I have logged many posts in attempts the media and politically driven race bating that is enrapturing the nation. I might say unfairly.

The recent church violence in Charleston is inexcusable period. The response of the parishioners w exemplary, dignified and graceful. I respect you heartfelt call for the bringing down the Confedera to preserve it in museums, but please realize this: The memorial in and of itself is a historic artifact represents people who were living up to the standard of the constitution in their day. The issue was balanced at Gettysburg by Abraham Lincoln, the war ended and the nation continued. I'm no worse anyone else despite the difficulties in my life.

The grace and dignity of the citizens of Charleston was immediately hijacked by political opportur baitors as the President's former Chief of Staff famously said, "You should never let a crisis waste." While on face book I noticed that there is an enormous amount of black on white vic on black violence, and illegal alien on citizen violence that is being largely ignored by the press on level. To test my theory, go to YouTube and type in any of those terms. That being said, in trying t trends to the attention of the public on social media is only as effective as will be allowed by the m America is getting a bad rap as being racist, but the past cannot be ignored regardless of which dir approached from. Thank you for hearing me out. I love America and I tired of her history being revised and erased. B African descent. I'm tired of Blacks misleading Blacks with lies, half-truths, and opportunistic baiti sensational true incidents like this one.

With the lawless vandalism and trespassing on monuments even before S.C. made an act official ar racists immediately attempted to push everyone along knowing that the issue was being addressed. you, let the citizen decide if the Flag stays at the monument, and keep your monuments intact as th milestones, boundary markers, and evidence of our civilization/culture. Subject: PULLING DOWN THE SLAVER FLAGS OF ISLAM AND AFRICA

Please take a moment to read this second Frontpage editorial by Shillman Fellow Daniel Greenfield about how racists on the left - progressives, Democratic activists and radicals - on the defensive. How to fight fire with fire. It is possible that the Democratic Party has gotten away with its racist policies and racist politicians all these years because conservatives and Republicans are too polite to embarrass them. Daniel Greenfield has written the proper response from the left to ban America's symbols, stigmatize America's patriots and paint our great nation as a country to be destroyed. - David Horowitz

By Daniel Greenfield

The return of the Confederacy was averted in the summer of 2015 when major retailers frantically scoured the offerings to purge any images of a car from the Dukes of Hazzard. If not for their quick thinking, armies of neo-Nazis would have come marching down the streets of New York and San Francisco to stop off for an Iced Mocha Frappuccino at Starbucks before restoring slavery.

History will little note nor long remember the tired wage slaves making \$7.25 an hour while checking Amazon databases for tin models of an orange car with a Confederate flag on top. During this courageous defense of the South from the scourge of a mildly politically incorrect 80s show, Hillary Clinton committed her own unpardonable sin by saying, "All lives matter".

The politically correct term is, "Black lives matter."

Even while our own Boss Hogs in DC and SF are locking up the Duke boys as a symbol of racism, they are saying that black lives matter, all lives don't. The proportion that the weight of a life should be measured by race is the same as that we might have associated with slavery. Today it's an idea that we associate with racial tolerance as we heal the racial wounds one race riot at a time.

Romanticizing the South means a whipping from our cultural elite. Instead of romanticizing the culture that the South created, they romanticize the Middle Eastern and African cultures that sold them the slaves.

When Obama condemned Christianity for the Crusades, only a thousand years too late, in attendance was the Sudan: a country that practices slavery and genocide. Obama could have taken time out from his rigorous tour of the Middle Ages to speak truth to the emissary of a Muslim Brotherhood regime whose leader is wanted by the International Criminal Court for crimes against humanity. But our moral liberals spend too much time romanticizing actual slavery.

It's a lot easier for Obama to get in his million dollar Cadillac with its 5-inch thick bulletproof windows, a riot could only envy, and chase down a couple of good ole boys than it is to condemn a culture that committed genocide in its own time, not in 1099, and that keeps slaves today, not in 1815.

Even while the Duke boys were being chased through Georgia, Obama appeared at an Iftar dinner: an event to emulate Mohammed, who had more slaves than Robert E. Lee. There are no slaves in Arlington House today, the heartlands of Islam, from Saudi mansions to ISIS dungeons, there are still slaves, laboring, beaten, bought, sold and disposed of in Mohammed's name.

Slavery does not exist under the Confederate flag eagerly being pulled down. It does exist under the black arabs and Islam rising over mosques in Iraq, Saudi Arabia and America today.

In our incredibly tolerant culture, it has become politically incorrect to watch the General Lee jump a fence or paying tribute to the culture that sent the slaves here and that still practices slavery is the culturally sensitive. In 2015, slavery is no longer freedom, but it certainly is tolerance.

And it's not just about Islam.

If romanticizing Dixie is wrong, so is romanticizing those ancient African cultures so beloved by amateur and professional sociologists with more plastic tribal jewelry than sense. Slavery was an indigenous African and American practice. Not to mention an indigenous practice in America among indigenous cultures.

If justice demands that we pull down the Confederate flag everywhere, even from the top of the orange car sign in the freeze frame of an old television show, then what possible justification is there for all the faux Aztec Even the worst Southern plantation owners didn't tear out the hearts of their slaves on top of pyramids. The Aztec brutality plays a crucial role in the mythology of Mexican nationalist groups like La Raza promoting the Aztec brutality in America today.

Black nationalists romanticize the slave-holding civilization of Egypt despite the fact that the narrative of the Hebrew slaves from bondage played a crucial role in the end of slavery in America. The endless stories about of the African kingdom of Dahomey neatly fit into the leftist myth of a peaceful matriarchal Africa disrupted by colonialism, but Dahomey ran on slavery.

The "Amazons" helped capture slaves for the Atlantic slave trade. White and black liberals are romanticizing that captured and sold their forefathers into slavery. "In Dahomey," the first major mainstream black musical about African-Americans moving to Dahomey. By then the French had taken over old Dahomey and together with the British put an end to the slave trade.

The French dismantled the "Amazons" and freed many of Dahomey's slaves only for the idiot descendants of the French to romanticize the noble last stand of Dahomey fighting for the right to export black slaves to Cuba and condemn the British liberators who put a stop to that atrocity.

If we crack down on romanticizing Dixie, how can we possibly justify romanticizing Dahomey or the Aztecs? If slavery and racism are wrong, then they are wrong across the board.

Even by the miserably racist standard under which all lives don't matter, only black lives matter, Dahomey and the Aztecs had bought, sold and killed enough black lives to be frowned upon.

If we go back far enough in time, most cultures kept slaves. The Romans and Greeks certainly did. That's why the standard is not whether a culture ever had slaves, but whether it has slaves today. If we are going to eradicate slavery, every culture that ever traded in slaves, there will be few cultural symbols that will escape unscathed. But the insistence on cultural relativism in 19th century Africa, reject it in 19th century South Carolina thereby revealing the hypocrisy.

And so instead of fighting actual modern day slavery in Africa and the Middle East, social justice warriors are invading Hazzard County.

As Ben Carson pointed out, we will not get rid of racism by banning the Confederate flag. Even when it is used on the likes of Dylann Storm Roof, it is a symptom, not the problem. Roof was not radicalized by the dead Confederate flag, the racial tensions kicked off by the Trayvon Martin case.

The same racial tensions that led to the murder of two police officers by a #BlackLivesMatter protester in New Orleans led to the massacre of nine black congregants in a church in Charleston. This surge of violence has its roots in racism, not Obama and his supporters seeking power and political gain, but feeding racial tensions for political purposes leading to actual violence.

The Confederate flag is a matter of history. The racial tensions stirred up by Obama have actually gotten people angry. The Confederate flag is not making a comeback and Robert E. Lee will not come riding into San Francisco any time soon. The Civil War was not about slavery. The country would be a better place if modern racists who believe that some lives, whether black or white, are more valuable than others, were eradicated.

Sir,

I am writing you today regarding the issue of the Confederate battle flag and our state house which the news recently following the tragic murder of our fellow citizens in Charleston by a deranged cr madman.

My name is Joshua [REDACTED] and I am a descendant of two brothers who served our state as honorable soldiers, Isaac Livingston Grier and William Moffat Grier. The first gave his life for our state in ba Mill in Virginia in 1862, and the second lost his left leg in battle for our state at Williamsburg, Virg same summer. Both men are buried in our family plot in Due West, South Carolina, less than a qua where I work as a professor of History at [REDACTED] College.

I provide you this level of personal detail because it is personal histories like those of my family an service to our state which make this such an important issue to me and to many other South Carolin

The current compromise regarding the Confederate battle flag and its placement that we operate un reached after careful consideration and work by all parties and unraveling that in a bid to comprom latest demand of the "politically-correct" left sets a bad precedent.

The NAACP is clearly using the terrible tragedy our state has recently experienced merely to forwa political agenda. While using the deaths of my fellow South Carolinians in Charleston is despicabl

during their rallies.

Given that George Washington had no connection with the Confederacy, the battle flag, or the shot at Charleston, it would seem that the NAACP's goal is to, in fact, eradicate all vestiges of our history. They are backed by the current administration in Washington in this effort to destroy our culture and our way of life. They are seeking to "fundamentally alter" America.

The mob mentality and hysteria we are seeing in the national news media is targeting the flag of the Confederate Soldier and the history of our state, and not the murderer who killed 9 of our fellow citizens. The battle flag seems to hold such controversy today was a symbol of an honorable army that fought in defense of our state.

If efforts to remove the flag succeed, there will be a price to pay politically for those who bow to such demands. We, the descendants of these patriots, will hold our politicians accountable, as we have held two Governors accountable in previous years regarding this same issue.

The descendants of the Patriots who fought in defense of their liberties and state have not moved away from South Carolina here. We work here. We spend money here. We vote here. And we should not and will never abandon the honorable memory of our ancestors and what they gave for our state in a rush to appease those who want to eradicate our culture and history in the wake of tragedy.

Thank you for your time and service to our state and community. God Bless South Carolina!

<SUBJECT>Regarding the Confederate Flag</SUBJECT>

<MSG>

Dear Governor Haley:

I applaud your recent public call to remove the Confederate Flag from the State House grounds. As future resident of South Carolina, a graduate of Berkeley High School and the University of South Carolina (BA 1973 & MBA 1981), I have long realized that state veneration of the Confederacy is both inappropriate and contributory to poor race relations in South Carolina, and does nothing to help our public image, in fact, it does the opposite. However, your contention that Dylan Roof warped the ideas of the Confederacy into something the Confederacy never intended to be, is absolutely incorrect. I encourage you to read the "Declaration of the Immediate Causes Which Induce and Justify the Secession of South Carolina from the Federal Union, 24 December 1860. Cc Convention (1860-1862)." You can find it in the South Carolina Department of Archives and History, Room 100, the State House. (I used to work there.) I also encourage you to read the "Corner Stone" speech of Jefferson Davis, Vice President of the Confederate States of America (Savannah, Georgia March 21, 1861). You can find that on line with very little effort. There are others, such as the secession declarations of the individual states, but these two documents alone, which are central to the foundation of the Confederacy, make it clear that the Confederacy was founded on the non-existent "state's right" to promote and enforce the enslavement of people by white people, despite the fact that it has since been misrepresented as a noble revolt against a tyrannical government.

I hope this helps you remain firm over the weeks to come in your resolve to support removal of the Flag (and eventually all Confederate war memorials) from public view on (all) State governmental buildings and museums, where they belong. Dylan Roof did not warp the ideas of the Confederacy; he incorporated them.

Sincerely,
M. [REDACTED]

Put the issue to a vote. A matter so important to the State and her history should be decided by the people. It is time to ignore the propaganda of the liberal media and racists and allow the people to speak. I realize you were elected to represent us but this matter deserves more attention and consideration than can be given by one person.

Dear Ms [REDACTED]

Thank you for taking the time to contact us. These have been very difficult times for South Carolin

strength set a powerful example for us all.

Even in the midst of our grief, South Carolina set about the process of healing - not by talking about divide us - but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our prayer. We came together as a state, as a unified people, to remember those we lost and to begin the process.

We've also come together in acknowledging that certain symbols and events of our past resonate deeply among us. For some, the Confederate flag represents a history of their ancestry and heritage. For others, it is a deeply painful reminder of a brutally oppressive past.

Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to make a statement about moving the flag from the Statehouse grounds. This is a moment in which we can set the flag, while an integral part of our past, does not represent the future of our great state, and that by removing a symbol that divides us, we can move forward as a state in harmony.

The time has come for us to set the flag among the other markers of our history so we can set our eyes on the great promise of a united South Carolina. God bless.

My very best,

Nikki R. Haley

Dear Governor Haley,

What is wrong with the "other markers of our history" that cloud our vision for the great promise of a united South Carolina based on INCLUSION rather than EXCLUSION? Soldiers and civilians died unmercifully at the hands of the invaders, British, Spanish, French and Yankees alike, both black and white, red and all other races. We do not carry hatred for any, but charity for all, including all of the foregoing. But we do not turn our backs on those who died in the 18th through the 21st century in order to honor those innocents who died for no good reason, as well as those who died as patriots.

In the minds of many, perhaps Most, you cannot re-write history or ignore the selfless sacrifices of those who paid the ultimate price for Freedom. Political correctness is simply incorrect. Keep trying with a more open mind and you will see that those 7 people who should not have been killed do not trump the millions who have been killed in prior times.

Perhaps you noticed a Confederate battle flag or two at the recent Firecracker 400 after NASCAR tried to do what you are trying to do: repudiate the sacrifices of South Carolinians, black and white, who died fighting for Independence of the 11 Confederate States. Although their quest met the same fate as your latest dab at Political Correctness, they paid a heavy price for wanting to be free from Northern dominance. I hope you pay a suitable price for trying to once again dominant the majority of your own people who elected you.

I appreciate you taking the time to response to my email. I understand that everyone is blaming the flag on the events that happened, but it wasn't the flag that made this person do this . it was pure evil. As I have stated to my other representatives in the State of South Carolina. A lot of the people complaining about the flag are not even residents of south Carolina, if you will look at the polls most of the people in South Carolina do not want the flag down. That being said, I will tell you that if the flag comes down then Martin Luther King day should be removed as a day off for our South Carolina employees and all black history monuments . etc should be moved to, that is offensive to me, so as a resident of south carolina, things should be equal.

I also will tell you as I have told all of my other representatives, because of your stand, I will not back you or vote for you whether it is for something in South Carolina or something on the national stage. I will not vote for anybody that represents taking down the flag and will vote for the people that will not vote to take down the flag.

Governor Haley.

If the Confederate flag represents heritage, it is a heritage of hate, of extreme racist living, of lynching and murder and of the slavery.

The Confederate flag is thoroughly and completely ugly.

That is not what someone else thinks about it.

That IS what that flag is — it is a flag of hate.

It also represents a profound lack of intelligence.

Not anything I would want to be associated with.

It's pathetic and sad that you speak up for it.

THREE CHEERS for Bree Newsome.

Now there is a woman with guts.

BS
Many, many blacks fought in the war for independence and freedom for blacks. That flag is to remember what their fathers and or grandfathers fought and died for. As I said, I'm originally from the north. down, it comes down. But Flag or not, I think that murderer acted on his own beliefs and decisions a great job as Governor, run with your heart!

Thank you.

Governor:

That Confederate flag is our history during 1861-1865. If the blacks do not like the flag, which is part of our history in life, let them go back to Africa where their King sold them as slaves to the English in that they were sold. The King had slaves himself. It is not our responsibility to tear our history down because of a black skin human being. They are welcome to go back to Africa where they belong. They have a different culture than whites and have damaged our education system.

When a black is born, his or her IQ drops 14 points from birth to age 14 as I read in college about that was my sociology class. Studies were done on that subject.

I notice in your picture on the computer this morning, it is more blacks around you when you were taking down the flag. That flag did not kill those nine people in church. The gun did not kill them. A boy killed them. Guns and flags do not kill, humans kill.

NOW YOU PEOPLE LEAVE THAT FLAG WHERE IT IS--ON THE POLE. THAT IS PART OF OUR HISTORY. THAT IS GOING TO START A RACIAL WAR AS I WAS READING FROM A PAPER ON THE COMPUTER SEVERAL MONTHS AGO. WHITES ARE TIRED OF THE BLACKS MESSING UP OUR COUNTRY AND GETTING WHAT THEY WANT. THAT BLACK PRESIDENT HAS CAUSED THE FALL OF THE UNITED STATES. THOSE 5 MILLION ILLEGAL MEXICANS SHOULD BE DEPORTED BACK TO MEXICO. THEY ARE CRIMINALS AND NASTY LOOKING. THIS IS THEIR COUNTRY. I GET TIRED OF HEARING SPANISH TALKED INSTEAD OF ENGLISH BY THOSE CRIMINALS.

6/26/2015

Gov. Haley,

Greetings. Thank you for being our Governor. May I have a few moments of you time, please.

I don't like and I feel disgusted with what happened to those nine people in Charleston, especially that happened in a church. Why? It's crazy and was not necessary.

Yet, I'm also appalled by the ignorance I see broadcast by the State, Free Times, and other "news" outlets about the Confederate battle flag. I am equally sickened at the actions, hatred and accusations of those who support the flag. I for one, (as well as some of my friends or relatives) are being accused of something that I am not. I am not a racist. I am not a so-called Nazi because I support the flag and understand its true origins. I loathe and despise racism. I live in a mixed heritage (some would say racial) family and this is one of the reasons many for myself hating racism. But to the "News" media, to the protestors, because I support the flag, I am automatically labeled a racist, slavery sympathizer and Nazi. Those people don't know me. Sadly, this happens when Liberals, anti-Southerners and the uneducated and/or ignorant set out to fulfill their agenda. Opposition to their agendas is fair game, no matter what tactics they utilize to attain their goal, even if it is necessary. I don't think most of those people protesting know the true facts surrounding the causes

unfair tariffs, for Southern independence and against an illegal Northern Military invasion of sovereign states.

Unlike what they have been taught by the ignorant or revisionist historians, or biased TV documents or books and contrary to the Liberal and politically correct myth, The War For Southern Independence fought strictly over slavery. As noted that was fought primarily for independence. Yet, the Federal disagreed and enacted an illegal invasion of sovereign southern states. For some Confederate soldier commanders that war was akin to their ancestors' war against the British government for freedom and independence during the Revolutionary War.

One example I have in my historical records is this: The Congressional Record of March 2, 1928 re joint resolution Number 41 wherein Congress recognized the title "War Between The States" as previously was waged from 1861 to 1865 between TWO SEPARATE and organized governments: the United States of America and the Confederate States of America. These were the official titles of the contending parties, not a "Civil War," as it was not fought between two parties within the same government. It was not a "War of Secession," for the Southern States seceded without a thought of war. (The right of a State to secede had never been questioned. It was not a "War of Rebellion" for sovereign States co-equal, cannot rebel against each other. It was a War Between The States, because twenty-seceding States made war upon eleven seceding States to FORCE them back into the Union of States until after the surrender of 1865 that secession was decided to be unconstitutional.

The flag was not originally a symbol of racism. Yes, unfortunately racist groups like the KKK and have hijacked and abused it and the "news" media demonizes it as well as those that fly the battle flag otherwise associated with it. They either ignore the fact or just don't know that there were Northerners who owned slaves including some of the Union Commanders. Likewise, there were Southerners who opposed and did not own slaves (it is stated only about 2% had slaves) or that Lincoln was indifferent toward them. Read some of his speeches. Besides, he only freed the slaves in the South with the Emancipation Proclamation, not in the north. Do they know and understand the historical facts of various ethnic groups in the Confederate military such as Native Americans (the 69th North Carolina or Thomas Legion comes to mind), Hispanics, Negroes or Asians? And according to some every last Southerner at the time were totally against it, would not stand for that. Okay, sure. Yes, some of members of the same ethnic groups fought in the military, but after all it's not politically correct to point out the Confederate military had such men, it whatever their motivations were.

The flag in front of the SC statehouse is a memorial to the fallen soldiers and the soldiers that survived Northern Aggression. It is to honor their memory and what they did, the sacrifices they made, for a just cause, for what was wrong, what they believed in, it is also a memorial to what happened in South Carolina and Columbia and surrounding communities at the time when Gen. Sherman and his soldiers conducted their urban reconstruction program in Jan. and Feb. 1865. It is a historical reminder. It is no different than Revolutionary War battle site memorials scattered across the country. It is not different than the various WW-II memorials and sites scattered across the world. Should we Southerners that had ancestors alive at that time, or had ancestors who fought in that war be made to forget or hide it because some radicals say otherwise? Should what happened in Columbia be forgotten because someone disagrees? Try taking away what the opposition supports, try taking away their symbols and see what happens.

The flag is being used as scapegoat and to further the Liberal political agenda. The shooter had me

kill those innocent nine people. The media deliberately choose out of several photos the one where holding the battle flag. It was deliberate and under handed. I feel this is typical of most of today's "liberals". Yet also in the media as I'm sure you have noticed the vandals and radicals have gone after other Confederate symbols and memorials. I ask you, where will it end? Will they stop, if they get the battle flag down? I think not. What is next? A total and complete purge of all things related to the Confederacy in that direction. Will they go after the Wade Hampton monument or the Confederate soldier monument on the Statehouse grounds. Will they go after Confederate cemeteries or graves? Will they go after museums? Will they call for an end to all "Civil War" reenactments esp. if reenactors are representing Confederate soldiers? Will there be a further demand to re-name things that has a Confederate associated name? Will they go after historical documents? Will they go after Confederate historical artifacts and memorabilia? Will they demand Confederate memorials be removed from battlefields and such? Will they demand and protest it should be one-sided i.e. pro Union/Federal? And it is not Confederate related, what will be next? Christian symbols? U.S. Constitution? Just what will it be? Perhaps, anything or anyone that offends them and stands in the way. I don't think these people and their cohorts or their leadership ("coaches") will stop.

With no disrespect intended, please leave the Confederate battle flag alone and don't give in to the Liberals, special interest groups, black racists or anti-Southerners. Please, don't give in to their pressure and threats and, please, don't allow yourselves or Gov. Haley to violate the Compromise Agreement regarding the flag. It should be left alone. Don't wind up like the weak Supreme Court justices regarding same-sex "marriage." Please allow the democratic process to take place and let the people of South Carolina decide the fate of that flag. That is the correct thing to do, instead of just caving in and hauling it down willy-nilly.

If you for some reason refuse to let the people vote and feel something must be done, then perhaps one of two things is a solution to the issue. Replace the battle flag with the Bonny Blue flag or one of the Confederate National Flags, as a memorial. Or, secondly if you feel the battle flag must come down, then pass legislation and have erected all the flags that South Carolina was once under over the past nearly 50 years. Flags such as the Spanish, British, one of the Patriot Revolutionary War flags, an early U.S. Flag and three of the Confederate national flags as well as the current U.S. flag and also flags or banner of the Native American tribes. As historical as SC is I think that would be as fair as well as interesting compromise. What do you think? There is enough room on the Statehouse grounds to allow for more flags/flagpoles and a marker relating the history of said flag. If I am not mistaken there are some State capitals that already do this.

I apologize for this lengthy letter/e-mail, but it is something I wanted to get off my mind and relay it to you.

Thank you for your time and consider of the above matter.

Had to choose a topic, not really one listed for support of our Governor.

Please let the Governor know that [REDACTED] Municipal Court Staff are proud of our State and that we support today for Charleston and the Charleston AME 9 via photo on Blue and White Friday. Proud my Governor too.

I am long time supporter of Nikki Haley, but highly dissapointed in the way the 'flag issue' has been
admired her pause after the Charleston church killings..careful not to take away from the awful eve
Disappointed that the flag argument was brought up again so soon. My question is where did our st
that loves state rights go? Why can't the issue be voted on and the majority rule? It seems to be the
most equally accommodating way to handle this issue

Many states are under fire to remove the Confederate Flag from the southern state buildings. as many people want to see it removed because of they believe it stands for slavery they have never been made aware of their life's. The flag was a symbol of the confederacy not that of slavery. if the flag has never harmed anyone if they want to point fingers at who was responsible for wanting to protect slavery they should look at the people who were in power at that time. Even if the flag was to be removed it will not stop the everyday slavery in this and other countries around the world. The blacks want someone to blame for the atrocities that were brought upon them over the years. but truth be known the atrocities today have nothing to do with the Confederate flag. If we allow them to remove history how long will it be until those from other countries say the American flag is an insult to them and their country and they want it removed. History is just that history and we can't change the past but we can move forward to make America a better place by looking at the problems others for what is happening today. The shooting that took place had nothing to do with the flag it was a person who for some unknown reason felt that by holding the Confederate Flag that he could start a war in our country a war that we do not need when we have so many other problems that demands our attention. I don't think anyone should ever see the Confederate Flag itself kill anyone then I may look at it different but sir the flag does not have arm or legs I don't believe it will ever do harm to anyone.

PLEASE DO NOT GIVE IN TO GROUPS THAT JUST WANT TO CAUSE PROBLEMS THAT WE DON'T HAVE A NEED.

THANK YOU

In regards to the tragic shootings in Charleston, my heart goes out to the families of the victims. Th
I do not understand the scrutiny that has befallen the confederate flag. The flag is symbol of our he
like the palmetto tree. It seems that the blame for the event is misguided and has escalated into a na
race war with the flag as the trophy. It's unfortunate that it has come to that and I feel like since Sou
was the home to the incident, we have a tremendous amount of influence in this motion. I would lik
South Carolina rise above this and be an example of the campaign against racism without compron
history of our State.

Thanks for your time.

I Heard from the next world that the the South Carolina church black race shootings were karma for killed other people (the nine who got killed, killed p before in previous lives). And the karma was for organization that gives minds that work to members whose mind stopped working as well because of others (which damages your mind), to the nine who got killed. The shooter had 8 members in his back shoot straight, and those 8 are now out of a hell which gives them credit to get out if they blast away smashed people to death.

We are trying to change this karma law, but some hells have it. Many times some get the wrong information innocent ones.

99.85% sure is true.

I am a genuine religion-founder-medium, and have had help to hear the next world, and I have seen times.. The next world of lighter density: matter and bodies (less atoms per cubic inch of "rock") to people and minds and past lives* in the next world. I can tell that I have known them before by memory which takes thousands of lives together to happen. Reincarnating to meet each other, and living many of years together, -total of thousands of lives on Earth or other planets. So I am sure I am hearing the add reason, logic, and realization to know the truth, and make sure I know the truth.

Thank you for reading.

Dear Mr. [REDACTED]

Thank you for taking the time to contact us. These have been very difficult times for South Carolina hearts and minds remain fixed on the nine families and the communities shaken by this tragedy. Th strength set a powerful example for us all.

Even in the midst of our grief, South Carolina set about the process of healing - not by talking about divide us - but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our prayer. We came together as a state, as a unified people, to remember those we lost and to begin th process.

We've also come together in acknowledging that certain symbols and events of our past resonate d among us. For some, the Confederate flag represents a history of their ancestry and heritage. For o is a deeply painful reminder of a brutally oppressive past.

Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to statement about moving the flag from the Statehouse grounds. This is a moment in which we can s flag, while an integral part of our past, does not represent the future of our great state, and that by i symbol that divides us, we can move forward as a state in harmony.

The time has come for us to set the flag among the other markers of our history so we can set our e great promise of a united South Carolina. God bless.

My very best,

Nikki R. Haley

Sorry, but I don't agree with you at all. Again, it should have been put to the people. It was not you who made the decision. Shame on you taking it out of the hands of the people. I don't care how compelled you were, it was wrong.

Governor Haley

Thank you for your response and completely agree with your statement and view.

My question though has to do with obtaining a flag that has flown over the monument. Is there a way to obtain a part of our states history in having a flag sent to me.

By getting rid of it, you're just caving to the PC police, which are mostly democrats, who were the first ones to display it, and were the guys behind the KKK, and if you knew your history, instead of caving to the PC Police, you would know that, instead of being a colossal dumbass!

Dear Governor Haley:

Thank you for responding to my email. As a Christian, I try to treat all persons, regardless of race, etc the same. As I mentioned to you in my first email, there is a solution to this problem without causing more strife in our beloved State. There is a monument to the fallen soldiers of the Confederacy on State House grounds as well as monuments to other War soldiers and an African American display. As I have the family members who fought and died in the civil war, as well as all other wars fought by American Soldiers, I firmly believe they should all be recognized for their service.

I truly agree with you that the particular flag now flying is a symbol of hatred because of the hate groups using it to represent their hate, should come down.

There are more beautiful, gentle flags of the Confederacy, that could be substituted to represent the fallen soldiers.

Please try to reach a compromise. Making a decision in the height of absolute horror of those nine persons being killed, which was tragic beyond belief, should be reconsidered many times before actions are taken.

Thank you for your consideration of this compromise.

Thank you for your reply.

So, Governor Haley is acknowledging that the opinions against the Confederate Flag are more important than the opinions in favor?

We had a local gathering of political donors on July 4. This issue was discussed. Although there were differences of opinion about whether the flag should be removed from state property, there was one thing which all agreed: THE OPINIONS OF UPPER MIDDLE CLASS PEOPLE NO LONGER MATTER TO POLITICIANS.

The government is doing more to harm racial relations than any other factor.

Future elections will reflect on your actions.

Dear Terry,

Thank you for taking the time to contact us. These have been very difficult times for South Carolina. Our hearts and minds remain fixed on the nine families and the communities shaken by this tragedy. Their strength set a powerful example for us all.

Even in the midst of our grief, South Carolina set about the process of healing – not by talking about how to divide us – but by hugging our neighbors, holding vigils, honoring those we lost, and falling to our knees in prayer. We came together as a state, as a unified people, to remember those we lost and to begin the healing process.

We've also come together in acknowledging that certain symbols and events of our past resonate deeply among us. For some, the Confederate flag represents a history of their ancestry and heritage. For others, it is a deeply painful reminder of a brutally oppressive past.

Inspired by the victims' families and the re-opening of Emanuel A.M.E. church, I felt compelled to issue a statement about moving the flag from the Statehouse grounds. This is a moment in which we can choose to keep the flag, while an integral part of our past, does not represent the future of our great state, and that by removing a symbol that divides us, we can move forward as a state in harmony.

The time has come for us to set the flag among the other markers of our history so we can set our course for the great promise of a united South Carolina. God bless.

Confederate Flag

Thank you, Governor Haley, for your reply to my email. I think it is telling that the major protester the Confederate Flag remain on the capitol grounds and are referring to it as an object of their heritage. It is an object of a treasonous past. It's also my understanding that this flag was raised in 1962, changes in civil rights' laws, and was an object protesting civil rights for African American citizens. The flag is the equivalent to an all around bad guy! Although I understand that your state legislature is in favor of the flag to be removed, I feel that the Alabama governor had it right: he didn't worry about laws of power, he just had the flags removed! Thank you for giving me this opportunity to state my opinion.

Governor. Thank you for your reply to my email. I am not mad at you, in fact I feel sorry for you k you will face ahead. You obviously do not know the NAACP or their core values. You will never s They covered George Washington's statue several times since he was a slave holder. They want ev Confederate removed and many Revolutionary and other period statues, schools streets etc. Dishar must for them to exist. Today I received requests for 4 applications from people to join the Sons of Veterans, and have seen hundreds of battle flags come out in my county lately. Reopening this "bat compromise is costly to us all. Reopening it simply to appease a group bent on cleansing our state c culture is despicable especially "using "a horrible tragedy as they have done. I am personally going you. This is one huge mess. J.T. [REDACTED] Roebuck.S.C.

Check your face books posts for my response. How could I have twice voted for a Governor ruled by her emotions rather than by what is best for South Carolina.

Nikki, You are correct in some of what you say below. However this is a free speech issue only an 15 years ago showed enough is never enough. We already are seeing the effects of your not support speech here and instead politicizing the issue. Now no Dukes of Hazzard re-runs, Confederate war around the South being brought down ad nauseum. It never ends when you do not support our U.S. and in this case specifically the 1st amendment (free speech). As you do, I try never to use any word flag etc to intentionally be offensive to another person or group of persons. BUT, the 1st amendment Constitution did not protect speech of anyone not be offended but in actuality protects the most offensive of speech including even the use of the N word. Every local official (including you), soldier, Marine and National Guardsman (including your husband) took an oath to "protect and defend the Constitution against all enemies both foreign and domestic". As a result we protect, and must continue not only the 1st amendment, but the entire Bill of Rights. The 1st amendment does not care if you, or anyone else is ever offended. What is offensive here is your PC speech position and worse your restraint of speech in blatant violation of the 1st amendment. Nothing is wrong with being offended by anything as one's freedom of speech is another man's treasure. You and I both know the National RNC and others (I mention below) prevaricate into political posturing. What you have done here is pander and grovel to the national RNC, National Association of Commerce, globalist/elite groups representing everything BUT the U.S. Constitution, the NAACP. Nikki I am afraid in this case you are more of a carpet bagger than my Constitutional state representative you are supposed to be. You, Tim, Lindsay, Mark etc should hang your heads in shame. Meanwhile the correct answer was to have a statewide referendum on the issue and once more, as in the video poker issue, let the people's voice being made known you and others have decided to be judge and jury.
