Colleton Cty Champion list.xls

Sorry I missed your call. I'm taking a class at church on Tuesday afternoons during Lent.

So, I'm a little disappointed but we also have a golden egg too!

I'm attaching a list of the county steering committee and the latest list of businesses supporting Colleton from ACTs website. Looks like the "committee" hasn't done anything, just the Adult Ed person who is the champion. The industry rep's and chamber rep haven't even signed up to support on ACTs website. I've put a fire under their rear though.

The only manufacturer currently supporting is SarlaFlex. They are the newest industry, they are from India and their president was Colleton County Industry Appreciation Ambassador last year. They just put in millions of bucks of new equipment. This just might be the place!!!??? Thoughts?

The economic developer thought it was an April Fools prank. I left him hanging.....

Can't believe about City of Cola ED. Maybe they'll call me.....hehehe.
