Subject: RE: REAL IDs

Hi again, thanks to Rob for calling earlier.

Update on timing for this story: It's going to go in the Sunday paper so we'll need to file by Thursday afternoon. The sooner I can get an update from you on the state of play – and a statement on what Gov. Haley plans to do next – the better. And confirmation that Gov. Haley received a letter from DHS alerting her that SC must comply by January 2017 (and maybe a copy of the letter and her response, if applicable)? But now at least we have a defined window within the work.

Thanks so much,
Emma

Hey there, hope you had nice weekends. Wanted to make sure you saw this and see if you had any info or intel to share?

Thanks so much,

Emma

Subject: REAL IDs

Hey guys, it's Friday! And isn't it fun we've gotten a chance to work together so many times this week? Let's try to make Gavin and Maya jealous.

I'm writing about Trump – just kidding, I'm writing about this whole kafuffle with the Real ID and whether South Carolina is going to comply with DHS orders to change their drivers licenses or not be able to use them to get onto commercial planes or into federal buildings, etc. I understand a letter was sent recently warning state officials to change the IDs before January. I was wondering if that was a letter your office received or was it some other agency in the state – and, what comes next? Happy to talk on background or off the record. I'm still learning about this issue so would appreciate anything to help bring me up to speed.

This article is for early next week so no immediate rush here. Just wanted to put this on your radar. I'll follow up again Monday a.m. if you don't get to this before the end of the day today.

Thanks!

Emma
