Good morning,

The Consumer Financial Protection Bureau is working on a project to improve how we present information on our website. We are looking to gain insights from financial educators and advisors, social workers, librarians, policy makers, and others who assist consumers with financial issues.

As part of this project, we are conducting an online information sorting activity. The information you provide will give us valuable insights into more useful ways of organizing resources on our website. We encourage you to participate even if you are not familiar with our current website or resources. The sessions typically last around 30 minutes.

If you are interested in participating, please follow the link and complete the activity by the end of the day Friday, August 5th.
