The honorable
Mrs. Nikki Haley
Governor of Columbia

Dear Governor:

It's for me a truly great honor to address to you in order to congratulate you for your initiative of promoting and encouraging prayer and intercession for your own state and of course for all the United States also. ~~That boldness can only be done by true Christians,~~ knowing perfectly that that audacity would be a political suicide in this illogical, dim-witted and harebrained world of politics, which is turning more and more atheist and anti Christian values and spiritual principles, that you may well wait for boycotts coming to your life from everywhere and furthermore we can only expect the end in very grotesque way.

I want you to know that I am praying, along with my family, for you to be able to find grace before the eyes of all the people that move around you, especially at your job where everybody can find a great deal of persons that are hard to deal with, thinking they are more intelligent than Christians and even than God himself.

I am completely dumbfounded and I'm sure large numbers of people throughout the world are so as well, about the authorization of the matrimony between persons of the same sex. That measure has been adopted by and for all the country. The United States, the country that was the advocate of the principles that God loves is becoming so laissez-faire that all Latin America has stayed astounded with its mouth utterly wide open.

Don't they perchance remind themselves of the attack to the twin towers of the World Trade Center? I overheard that some Senators and Congressmen recognized that assault was a warning from God! After that they went to a nearby building and taken by the hands prayed to God imploring for forgiveness. Why? Because they know the entire nation has failed to obey His commandments.¹

But how stimulating is to find persons like you where everyone is surrounded by people who are marionette of satan without their realizing most of time, but others like satanists know very well whom they are serving and its number is growing contributing to the forthcoming of our Lord Jesus Christ.

Very truly yours,

Mario Orlando Cotto Godoy

¹ That's why God has permitted hell to rouse and use the most stupid religion of all in the entire world, the Islam. Possessed by evil spirits (or maybe not, because they already belong to hell, so it's not necessary for them to be controlled by demons) who are ruthless against their fellow creature no matter if they kill children and pregnant women and old age people. It's the last straw!
