Subject: Register for the Webinar - Paperless Government - What to Tackle Next

Register for the Webinar: What does Paperless Really Mean?

5 Stages of Efficiency: Where your organization stands today and what to tackle next

April 29th, 2015 | 2:00-3:00pm CST

Learn how other state and local governments transform manual, paper-based processes that would take days (or even weeks!) to complete into processes that now take just a few minutes. This gives staff more time to spend on core government initiatives, and allows constituents to see faster, more accurate service.

In this webinar we'll cover the values of Enterprise Content Management (ECM) across the government enterprise:

- Scalability – from department to enterprise, easy-to-configure ECM you build in phases
- Single document repository – breaking down information silos across your organization
- One vendor, one code base – one application for users to learn and for IT to support
- Efficiency – eliminates wasteful paper and manual processing and supports transparency
