

Governor

Nikki Haley

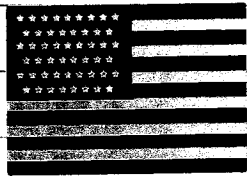

Topic:

All lives matter + All cases are different

The lazy abusive dark state law this mandatory minimum straight sentence and has to serve 85% of the sentence group guideline with a mandatory fine and a premeditated assault for the individual to fail if the charge does not come off their record. let america be free of this law. This law is not honorable punishment. for some cases this law is to abuse and discriminate on individual cases. this law does reward slavery. For some of the cases to be caged as a state numbered slave this long is reckless, it's too harsh, it's evil, and it's a disgrace. We stand with America and we stand tall. you know all cases are different. leaders get america out of this lazybone group guideline law. if you need help you can count on some of the loved ones.

All lives matter through the eyes of god

All cases are different through the eyes of the constitutional individual rights.

*The American
Spirit lives forever.*

In God we trust.

All lives matter *One Nation,
under God... All cases are different
with Liberty
and Justice for all.*

Love ones ask you to reply to this freedom
of speech in a letter with no reparation

To keep the circle of life in balance america be
Free of state guidelines put back individual cases
Lower the years + lower the 85%

This abusive mandatory minimum straight state
Sentence and has to serve 85% of the Sentence
Is a lazy bone law. this law is not equal punishment
