*Incredible
new possibilities
lie beyond
every bend in the river...*

A high-contrast, black and white photograph of a river scene. In the foreground, large, textured rocks are partially submerged in water. The water flows over and around the rocks, creating white foam and splashes. In the background, the river continues into the distance, with more rocks visible under a dark, overcast sky. The overall mood is serene and contemplative.

Dear Governor Haley,

It is with both joy and sadness that I send you this card! I am so happy for you that you have been chosen by the President-Elect to represent our amazing country as the ambassador to the United Nations. However, we will miss you greatly here in South Carolina. You have been absolutely wonderful serving our state and have brought dignity and class to the SC Governor's Mansion. I remember that I was in 9th grade in an Advanced Placement Government class and we had to research a campaign and do a presentation on any candidate running for office, I chose you, when you were 1st running in the primary to be our Governor I have supported you from the beginning and I know you will go on to do great things in New York at the UN. Make South Carolina proud, I know you will! ☺

Best of luck to you
as you round the next one.

With all my
best wishes to
you,

Dallas Strauss
