**Subject:** "I Believe" License Plate

The law providing for the design and production of the "I Believe" license plate passed today without the Governor's signature.

You may receive inquiries about the plate and when it will be available. Before the plate can be produced, the design must be approved and DMV must determine the cost of the plate. The application process must also be completed before the plate can go into production. All of this typically requires 2-3 months to complete.

If customer contact you about the plate, please ask them contact us at a later date. We should have more information in a couple of months. We do not expect the plate to be available until sometime in the Fall.
