Message:
Governor Haley,

I am a certified teacher in South Carolina. I have also been granted my Licensed Professional Counselor license through the state. I have worked with students in the schools since 1997. During part of the time, I was a direct employee of the school district. During the other time, I worked for the local drug and alcohol commission. I have also worked in private practice.

I give you this information because I would like to obtain my guidance counselor certification. It is a natural fit based on my experience. However, I am lacking two or three classes, which would be no problem to take. The issue is that I have to have a year long internship as a guidance counselor. I am

unable to do this as my finances inhibit me from taking a year off of work.

I know this is not your office's area of concern. However, I have dead ended at several universities and the State Department. I feel with my certification, experience, and licensure that I am more than qualified to become a guidance counselor. Certainly, there would be specifics of the job that I would need to learn. However, that is the case in all new employment situations.

I am currently working as a counselor in the schools through Medicaid's RBHS program. I feel that this position could be considered an internship if I worked alongside a supervising guidance counselor.

Would you please give point me in the right direction to anyone who could help me?

Sincerely,
Liz Rampy, M.Ed., LPC

<SUBJECT>Chaperoning at my child's school</SUBJECT>
<MSG>

I am a parent of a student at Davis Early Childhood Development. I was just enformed that I am unable to Chaperone at my child's school due to my criminal record. I have attended my older childrens school on field trips and field day. I admit I do have charges on my record that date back to 9/1995 through 5/1998. I am unable to pay the necessary costs to have the charges removed from my record(do to me being a single mother of three). This is a policy for Lexington School District 2 (803-796-4708) I spoke

with Tom Siler and really did not obtain any positive answers from him. There are no other school districts that are requiring this background check. I had no knowledge of this requirement when my child started school. I know I have made mistakes in my past. But I have been an ideal citizen and have learned from my mistakes. All I would like to do is take part in my child's school activities. Is there any way you all can help me with this situation.

<SUBJECT>Help needed in school district policies</SUBJECT>
<MSG>

Gov. Haley, As a voter and a resident of South Carolina for 48 years, I want to thank you for the wonderful job you are doing. Please don't forget the topic of students "out of District" policies. Our situation: We live in Abbeville County and 5 miles from 4 other counties. We don't fit in the county school system in which we are assigned and have completed the necessary process for our child to attend the school district that is closer to our home, child care, work and social fit. We went as far as buying property in our child's name so that he can attend the school in the out of district. We now pay taxes in two school districts. Their policy is changing again...(2nd time) of the out of district. Please set some guide lines for our state. We love our school and we only have 4 more years. This is an issue that may seem minor but I know you can help, not just us but for all children of South Carolina. Thank you, Pam Holley
