Thank you Leigh. We knew it was a long shot. Governor Haley did say that if there was anything that she could do to help to please let her know. We have been trying to get into the state budget. We were in it a few years ago but it was listed as a special project (earmark) and was quickly removed. I know the budget is tight but a little amount would go a long way to help us to help our families. Any assistance that she could give would be appreciated.

I wanted to see if you could pass on some further information to her. I don't know if she knows about the connection between ALS and military service. Since her husband is in the military, I would think she would be interested. I have attached what we call the "white paper" that provides additional information about the connection. Sadly, we don't know why this is the case.

If she should have any questions, please don't hesitate to let me know. Thank you for all of your help!

Rebecca
