**Subject:** Haley on election

---

Chaney,

I wanted the governor to weigh in on what the outcome of the election will mean for the future of South Carolina. Specifically, what does South Carolina's economy, future look like under President Trump look like and what would it look like under a President Clinton look like?

This is for a Sunday story looking at what the potential impact the two candidates would have on a variety of South Carolina issues, ranging from infrastructure, healthcare, taxes, education, criminal justice, defense, etc., if elected. We're reaching out to a variety of groups for input on this story and would appreciate yours.

Again, if you can get this direct from Gov. Haley, I would appreciate that. I know this week is heating up but if you can get this to me by tomorrow morning, or Thursday morning at the latest, that would be great.

Thanks,

Gavin
