Subject: Governor's Photographer Inquiry

Good Afternoon,

I am Christopher "Justin" Novello, I currently am studying for my Masters of Education at Columbia International University. I wanted to ask about how to become a photographer for the Governor. I wanted to know about how this process works and if there are any full time jobs or opportunities to do this. I have studied a lot about photography and film. I follow the White House Photographer and a lot and have learned this position is one of Trust. I saw that Zach Pippin was the Director of Digital Media, but I figured it better to ask you since you work directly with the press.
