The CSG **Shared State Legislation**, or SSL, Committee will hold its next meeting during the CSG Spring Business Meeting, April 20-23 in Lexington, Kentucky, where it will consider a docket of proposed state legislation for inclusion in the SSL volume. All CSG members are encouraged to submit legislation for the docket.

To be eligible, the legislation must have been enacted in at least one state and address a current state issue of national or regional significance; provide a benefit to bill drafters; and provide clear, innovative and practical structure and approach. To submit a bill for consideration, please send the relevant information to ssl@csg.org by Feb. 24.

The Council of State Governments' SSL program is both a member-driven process and an annual publication detailing topics of current importance to the states. The CSG SSL Committee, comprised of state officials, meets twice annually to review legislation adopted in the states. The committee then selects legislation to be included in the annual SSL volume. These volumes are published online and in print for dissemination to state leaders and staff.

CSG does not promote or advocate for the enactment of state legislation, nor does it draft model legislation. Rather, the program's goal is to facilitate the sharing of legislative ideas among CSG members. The consideration or dissemination of such legislation by the SSL Committee does not constitute an endorsement nor will CSG advocate for the enactment of any such legislation in any member jurisdictions.

The Council of State Governments is our nation's only organization serving all three branches of state government. CSG is a region-based forum that fosters the exchange of insights and ideas to help state officials shape public policy. This offers unparalleled regional, national and international opportunities to network, develop leaders, collaborate and create problem-solving partnerships. Learn more at www.csg.org.
