Hey Marcia,

Okay, my list of stuff is a little less focused. Since we're not doing a formal presentation I put together some talking points that we could cover. Some of them overlap nicely with yours.

Anyway, give them a read and tell me what you think. I agree with your points by the way.

Sean

Chad,

I scribbled some stuff down so I can have an semi-organized train of thought for tomorrows meeting.

The audience is me, but I wanted to run it by you to see if you want to change/add or delete anything.

Sean
