Feels like fall is finally upon us here in South Carolina! Have you had a chance to sit by a campfire at a state park since things have cooled off a bit? Tell us about your favorite campfire activity at a state park.

Darin K. James ^^What Chris said.... SMORES @ Cheraw State Park right after a sunset paddle on Lake Juniper.

Heidi L. Sease Telling "ghost" stories and spending time with my family! Ghost stories are the best when they come from the kids.

Sue Ann Tarkenton We enjoyed watching a family of racoon eat the seed pods in the Palmettos at Edisto State Park. We had a beautiful campsite just steps from the beach. We could hear the racoons up there in the Palmettos after it got dark and we wondered what they would do during the night. We woke up and found the cutest little paw prints all over our truck! I'll post a photo of the little stinkers.
