Disclaimer: I am not harassing or intimidating anyone by no means but seeks the truth and justice.

US EEOC and SCHAC:

I thought about this entire process and have always been a realist which provides freedom knowing the truth then acceptance of what is. I would like the opportunity to share some truth. I was told by one of you to trust you and trusting you have brought me to the halls of injustice. Ms. Dorn uncovered the truth regarding "Barred from Applying" but have denied access to verification of facts under an unjust law which is not her fault, SCHAC Attorney Joshua Barr had integrity to not destroyed my character in his letter but he then gave truth to lies stated by SCDEW of pertaining to their claims of hostility by me, Director, Ray Buxton was spineless and never intended for me to get justice but did everything to prevent it even to the point of a criminal characterization which I did not, SCHAC Board Member, Susan Bowers made a decision to cover her political friends and Ray Buxton provided that shield of protection by denying access, Gov, Haley never gave a thought to my injustice and would not even allow access to her with duties to protect all citizens of this state along with political interests and friends, Koa Morgan sent a letter of lies with baseless claims of harassment which SCDEW, SC Budget and Control Board, US EEOC, SC Governor Office and SCHAC upheld because I was a black man declared by this nation and South Carolina as evil therefore an accepted practice. Renee Grube of the US EEOC never really gave any seriousness to my claims of employment discrimination and retaliation because she never had any questions when she had prior knowledge of my concerns, Reuben Wright of US EEOC just signed his name as Renee Grube because he did not have any questions with a complaint that had an estimated 150 documents or more, Samuel Wilkins of SCBCB admitted to "Barred from Applying" but lied about the process to cover himself, the agency and political friends, Andrew Davis of USEEOC failed to declared injustice in the first complaint even when evidence was presented but he chose to focused him attentions in wrong directions by constantly arguing with me. Patricia Fuller of US EEOC failed to get justice in first complaint then requested that I trust her in the second charge with verification of "Barred From Applying" which was declared in both filed documents; therefore my trusting had my case was transferred to SCHAC for investigating knowing that South

Carolina Corruption and Laws would hinder true justice which may not be her doing. I leave not clueless there are others that are not mentioned in this letter but their hands are dirty just as yours. I became a slave standing in a circle with white master, guns drawn, dogs raging to attack, others white master with their guns even some with axes all had fiery torch lighted for a clear view it was evident my courage gave fear to those who was spineless.

I have declared your hands to be dirty so when using them as vital part of your body know there is a stain that you can not wash clean until justice rise from the conscience of a person. I have stood and look this evil in the eye and still seeks justice with the help of The Almighty God. I just wanted to clear the air and leave this injustice in the hands of The Almighty God because standing for justice is worthy in his eyes. Be forgiven and bless for it is the will of the Lord. This is my realist.
