Subject: Dams/Tv

All,

Wanted to put this on y'all's radars.

The governor sits down with TV reporters tomorrow, in the governor's office, to talk about the flood, one month after it struck.

She wanted to make sure she had the most updated information on dams.

Austin – do you mind reaching out to Director Heigel to get that information?

Let me know of any questions/concerns y'all have here.

RSG
