

Governor Haley,
My name is Linda
Poole. The purpose of this
second letter to you, is
my concern, with the chil-
dren, under D.S.S.'s care. I've
had the honor of keeping a
little ANGEL, in my home. I
will not call her name. My
main concern is, the child
that has been hurt, or alleged
that she has, will be return-
ed to the mom, after 12
classes, and a drug test.
Governor Haley, I've recom-
mended Psychological evalu-
ation from the beginning
until now, all the way
avail. Tell me if a child

has undergone any physical &
mental abuse, they should be
under professional care, and
the parent or parents as well.
How can 12 training classes
help the child, and parent?
We must write, and pass
laws to help our children. They
are innocent victims, sent from
the HEAVENS above. I pray
my grandson, will never have
to be put in Foster Care, under
D.S.S. No one seems to care
about our future leaders. I've
written you before, on this
significant matter. I pray who-
ever reads this, will con-
sider the urgency of this matter,
in S.C. Please! do not use
my name because of the child
involved, and plus me as
the care giver.

Governor Haley,³ thank
you, for your prayers,
and immediate action on
this very, very, serious matter,
our CHILDREN.

Sincerely,
Linda Poole
