Subject: Please call me

When you get a chance, call me please to see if there is any concern about how public dollars are being spent:

Topic:

York Technical College has an event center called the Baxter Hood Center. The school rents it out for functions, including political candidates, etc.

York Tech is a public college.

They have rented out space to the Sons of Confederate Veterans for their SC convention.

I wanted to see if your office has any concern about this use of public property for a potentially controversial group, especially after Gov. Haley was the lead person who pushed for removal of the Confederate Flag from Statehouse grounds in 2015.

Call me when you can.
