Subject: Governor's State of the State Address

Good morning, Katherine.

I have two questions for you this morning. First, I haven't heard from anyone in your office regarding any Power Point presentation to accompany the Governor's upcoming speech. If there is one and you'd like to test it—I will be happy to set up the system for a run-through. The second question is, could you please direct me to the right person in your office to e-mail me an MS Word version of the Governor's speech later today, when it is ready? I will share it with the Senate Journal Clerk and no one else. We've had some difficulty in the past with receiving this file prior to the 7:00 p. m. address, so I am hoping you can resolve this for the House and Senate Journals—as we must reformat the Governor's file to print in our respective journals this evening.

Many thanks for any guidance,

Karen LaRoche
