Subject: Unemployment Story

Here is a quote from the governor about today's unemployment announcement.

Quote from Governor Nikki Haley, "Today, along with celebrating jobs created in every county, we can celebrate that our 4.7 percent unemployment rate is down for a sixth straight month, hitting a 15 year record low. With more South Carolinians working than ever before, and jobs announced in every corner of our state, we can proudly say that South Carolina is on the move - and we can't wait to keep this momentum going."
