Dear GOV^a

I started Trying To get an Appointment with you since Jan. I have been To your office at The state House at least 5 Times and have had one story after another Told To me and do not believe one word I have been Told. The word on The street is The only way To speak with you in open door is To be invited or give money To The Rep. money machine. I do not give money To people in office because you have enough. The young lady on The phone This morning Told me about a whole new set of rules That I have never heard. Every Time I was in your office I spoke To The same person. They Told me three different Times They would call at The next open door. HA HA Great Laugh!

Thank you for This moment
JERRY NOBODY
