## INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

Mr. Thomas L. Wagner, Jr., CPA,  
State Auditor  
State of South Carolina  
Columbia, South Carolina

We have performed the procedures enumerated below, which were agreed to by the South Carolina Office of the State Auditor and the management of the South Carolina Department of Health and Human Services (the Department), solely to assist you in evaluating the performance of the Department for the fiscal year ended June 30, 2002, in the areas addressed. Management is responsible for the Department's financial records, internal controls and compliance with applicable laws, rules and regulations. This engagement to apply agreed-upon procedures was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures and the associated findings are as follows:

- 1 We tested selected recorded receipts to determine if these receipts were properly described and classified in the accounting records and internal controls over the tested receipt transactions were adequate. We also tested selected recorded receipts to determine if these receipts were recorded in the proper fiscal year. We compared amounts recorded in the general ledger and subsidiary ledgers to those in the State's accounting system (STARS) as reflected on the Comptroller General's reports to determine if recorded revenues were in agreement. We made inquiries and performed substantive procedures to determine if revenue collection and retention or remittance were supported by law. We compared current year recorded revenues from sources other than State General Fund appropriations to those of the prior year; and, using other procedures, we tested the reasonableness of collected and recorded amounts for certain revenue categories by revenue account. The individual transactions selected for testing were chosen randomly. We found no exceptions as a result of the procedures.
2. We tested selected recorded non-payroll, non-Medicaid disbursements to determine if these disbursements were properly described and classified in the accounting records; were bona fide disbursements of the Department; if the acquired goods and/or services were procured and paid in conformity with State laws and regulations, and if internal controls over the tested disbursement transactions were adequate. We also tested selected recorded non-payroll, non-Medicaid disbursements to determine if these disbursements were recorded in the proper fiscal year. We compared amounts recorded in the general ledger and subsidiary ledgers to those on various STARS reports to determine if recorded expenditures were in agreement. We compared current year expenditures with those of the prior year to determine the reasonableness of amounts paid and recorded by expenditure account. The individual transactions selected for testing were chosen randomly. We found no exceptions as a result of the procedures.

3. We tested selected recorded Medicaid disbursements to determine if these disbursements were properly described and classified in the accounting records; were bona fide disbursements of the Department; and were paid in conformity with State and Federal laws and regulations and if accounting procedures and internal accounting controls over the reporting of the tested disbursement transactions were adequate to provide proper control over these transactions. The individual transactions selected for testing were chosen randomly. We found no exceptions as a result of the procedures.
4. We tested selected recorded payroll disbursements to determine if the tested payroll transactions were properly described, classified, and distributed in the accounting records; persons on the payroll were bona fide employees; payroll transactions, including employee payroll deductions, were properly authorized and were in accordance with existing legal requirements; and internal controls over the tested payroll transactions were adequate. We tested selected payroll vouchers to determine if the vouchers were properly approved and if the gross payroll agreed to amounts recorded in the general ledger and in STARS. We also tested payroll transactions for selected new employees and those who terminated employment to determine if internal controls over these transactions were adequate. We compared amounts recorded in the general ledger and subsidiary ledgers to those on various STARS reports to determine if recorded payroll and fringe benefit expenditures were in agreement. We performed other procedures, such as, comparing current year payroll expenditures to those of the prior year; comparing the percentage change in personal service expenditures to the percentage change in employer contributions; and comparing the percentage distribution of recorded fringe benefit expenditures by fund source to the percentage distribution of recorded payroll expenditures by fund source to determine if recorded payroll and fringe benefit expenditures were reasonable by expenditure account. The individual transactions selected for testing were chosen randomly. We found no exceptions as a result of these procedures.
5. We tested selected recorded journal entries, operating transfers, and appropriation transfers to determine if these transactions were properly described and classified in the accounting records; they agreed with the supporting documentation, were adequately documented and explained, were properly approved, and were mathematically correct; and the internal controls over these transactions were adequate. The individual transactions selected for testing were chosen randomly. We found no exceptions as a result of the procedures.
6. We tested selected entries and monthly totals in the subsidiary records of the Department to determine if the amounts were mathematically accurate; the numerical sequences of selected document series were complete; the selected monthly totals were accurately posted to the general ledger; and the internal accounting controls over the tested transactions were adequate. The items selected for testing were chosen randomly. We found no exceptions as a result of the procedures.
7. We obtained all monthly reconciliations prepared by the Department for the year ended June 30, 2002, and tested selected reconciliations of balances in the Department's accounting records to those in the State's accounting system (STARS) as reflected on the Comptroller General's reports to determine if they were accurate and complete. For the selected reconciliations, we determined if they were timely performed and properly documented in accordance with State regulations, we recalculated the amounts, agreed the applicable amounts to the Department's general ledger, agreed the applicable amounts to the STARS reports, determined that reconciling differences were adequately explained and properly resolved, and determined if necessary adjusting entries were made in the Department's accounting records and/or in STARS. The reconciliations selected for testing were chosen randomly. We found no exceptions as a result of the procedures.
8. We tested the Department's compliance with all applicable financial provisions of the South Carolina Code of Laws, Appropriation Act, and other laws, rules, and regulations for fiscal year 2002. Our finding as a result of these procedures is presented as item 5 in Section A of the Accountant's Comments section of this report.

9. We reviewed the status of the deficiencies described in the findings reported in the Accountant's Comments section of our report on the Department resulting from our engagement for the year ended June 30, 2001, to determine if adequate corrective action has been taken. Our findings as a result of these procedures are presented in Section B of the Accountant's Comments section of this report.
10. We obtained copies of all closing packages as of and for the year ended June 30, 2002, prepared by the Department and submitted to the State Comptroller General. We reviewed them to determine if they were prepared in accordance with the Comptroller General's GAAP Closing Procedures Manual requirements; if the amounts were reasonable; and if they agreed with the supporting workpapers and accounting records. Our findings as a result of these procedures are presented as items 1 - 4 in Section A of the Accountant's Comments section of this report.
1. We obtained a copy of the schedule of federal financial assistance for the year ended June 30, 2002, prepared by the Department and submitted to the State Auditor. We reviewed it to determine if it was prepared in accordance with the State Auditor's letter of instructions; if the amounts were reasonable; and if they agreed with the supporting workpapers and accounting records. We found no exceptions as a result of the procedures.

These agreed-upon procedures do not constitute an audit of financial statements or any part thereof, the objective of which is the expression of an opinion on the financial statements or a part thereof. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Governor and the users specified in paragraph one of this report and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes.

**ACCOUNTANT'S COMMENTS  
JUNE 30, 2002**

**SECTION A - WEAKNESSES NOT CONSIDERED MATERIAL**

The procedures agreed to by the Office of the State Auditor and the Department require that we plan and perform the engagement to obtain reasonable assurance about whether noncompliance with the requirements of State Laws, Rules, or Regulations occurred and whether internal accounting controls over certain transactions were adequate. Management of the Department is responsible for establishing and maintaining internal controls. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Therefore, the presence of a material weakness or violation will preclude management from asserting that the entity has effective internal controls.

The conditions described in this section have been identified as weaknesses subject to correction or improvement but they are not considered material weaknesses or violations of State Laws, Rules, or Regulations.

**1. CLOSING PACKAGE LIABILITY FOR COMPENSATED ABSENCES**

Our testing of the amounts of accrued leave of 25 employees included in the schedule of compensated absences disclosed that one was incorrect. One employee took annual leave the last month of the fiscal year and the leave time did not get posted to the annual leave report until the fourth month of the next fiscal year. This resulted in an overstatement of 27.50 hours of leave time. A similar finding was cited in the prior year's Accountant's Comments.

Section 3.17 of the GAAP Closing Procedures Manual states that the schedule for compensated absences shall include the accumulated accrued unused annual leave earned by its employees which is the actual annual leave balance in the Department's records for each employee at June 30.

We recommend that all leave slips be posted timely to the leave records. Also, should leave taken not be timely posted at fiscal year end, the Department's schedule of compensated absences should be manually adjusted for leave taken on or before June 30 that was posted to the leave system in the next fiscal year. Accrued leave balances should be reviewed for accuracy by a responsible supervisor.

**2. CLOSING PACKAGE LIABILITY FOR NONCANCELABLE OPERATING LEASES**

Our testing of 15 operating leases reported in the schedule of future minimum lease payments in the closing package for noncancelable operating leases disclosed that the Department was not including sales tax in the future minimum payments which results in an understatement of a future liability. Also, the amount shown for one of the leases did not agree with the amount being paid each month.

Section 3.19 of the GAAP Closing Procedures Manual contains the requirements for the reporting of future minimum lease payments.

We recommend that the Department ensure that the schedule of future minimum lease payments include all applicable costs and that the amounts shown agree with the actual amounts being paid.

### **3. LIABILITIES OMITTED FROM INTERFUND PAYABLES CLOSING PACKAGE**

Our testing disclosed that liabilities to two other State agencies totaling approximately \$45,000 were omitted from the interfund payables closing package. The transfers paying the liabilities were recorded in July and August.

Section 3.18 of the GAAP Closing Procedures Manual requires the Department to include all liabilities over \$5,000 to other State agencies that are paid in July or August.

We recommend that the Department ensure that that all interfund liabilities are included in the closing package.

### **4. LOANS CLASSIFIED INCORRECTLY ON LOANS RECEIVABLE CLOSING PACKAGE**

Our testing of the loans receivable closing package disclosed that the Department classified all loans as current when they should have all been shown as noncurrent.

Section 3.5a of the GAAP Closing Procedures Manual states that loans should be shown as noncurrent when the collection is expected to occur after the next June 30.

We recommend that the Department ensure that all loans are correctly classified in the closing package.

## **SECTION B – STATUS OF PRIOR FINDINGS**

During the current engagement, we reviewed the status of corrective action taken on each of the findings reported in the Accountant's Comments section of our report on applying agreed-upon procedures to the financial records and internal controls of the Department for the fiscal year ended June 30, 2001 dated November 15, 2001. The prior report cited errors in the compensated absences and noncancelable operating leases closing packages. Findings in both of the areas are repeated in the current year's report.

Dear Mr. Laban:

Thank you for providing a draft copy of your Independent Accountant's Report on Applying Agreed Upon Procedures for the South Carolina Department of Health and Human Services for the year ended June 30, 2002.

We have reviewed the report, and we agree with your findings. As discussed in the exit conference, appropriate corrective action will be taken regarding the items in the Weaknesses Not Considered Material section of the report.

We appreciate the professional manner in which you and your staff conducted this engagement.

Sincerely,

A handwritten signature in black ink, appearing to read "William L. Wells".

William L. Wells, CPA  
Deputy Director
