Tony,
Is the information below OK to send to Cora?

Cora,
Your grant is coming from the LGOA, not the Administration on Aging. I spoke with our Director and he agrees that there is no need for DHEC finance to have a copy of the LGOA grant notification award from AoA, only the NGA from us to DHEC.

Subject: copy of notice of grant award from federal AoA grant

Malerie and Denise,

I have spoken w/ our financial manager re: your question about the request for a copy of the source document for the grant award, which we have always received in the past.

As a state government agency, we have a responsibility to report to the federal government based on the source of funding. Therefore, the request for a copy of the federal notice of grant award is a federal requirement, and the state auditors will be looking for it.

Malerie, if you want, you can just bring this along w/ the NGA on Monday when we meet; then, I'll have it together to give to our financial manager.

Thank you,

Cora
