Subject: Spartanburg single dad In need of help from higher up

---

My name is Jason Howard. I am a 37 years old single dad. I have a son, Kain, that is 7. He is my world and saved my life when he was born. His mother left me for another man in February 2017. I had Kain every single day of his life until that point. I was mom and dad. I was not put on his birth certificate, so when she left I had to bow down to her manipulative ways or not see my baby. I hired an attorney we had used in the past. He is a magistrate judge in northern greenville county. His name is Michael Don Stokes. I paid him \$3000 a year and a half ago to get us in court to do dna testing and me on birth certificate and custody of my son. He told me he hadnt had a man come wanting that before and respected it. Since, he has given me the run around, retired, moved up as a judge and was suppose to hand my case to the judge\\lawyer to handle my case. This attorney cant get the original one to give him the money i paid or the papers and evidence i supplied. I cant find an attorney who will sue him for my money and stuff because they dont want to upset a judge. So in a nutshell there is a judge who is passing judgement on others and is a thief himself. I cant find anyone who will have compassion for me and my son, and it is awful he is above the law and i do not have a voice. Please if you know anyone who would be willing to help me, i would be forever grateful. i was not a great person until my son was born and he made me into a great man and dad. Since his birth i have gotten an education and now a personal trainer and run my own rv business. He saved my life and now i owe him mine. Ive reached out to be turned away and just asking someone and anyone for some help anywhere i can find it. thank you for your time and i apologize for such a long drawn out letter. Im am just lost and heartbroken at the system and that justice seems unreal for people like me and my babyboy.
