Cat. Claims Center- N. Chas.- Press Release 10-12-15.pdf

---

All – Below and attached is info/language for the NFIP. This issue can get sticky, but we have a lot of mitigation experts available to help you and your constituents. Just let me know how we can help. Thanks, hv

The National Flood Insurance Program is aimed at reducing the impact of flooding on private and public structures. This is achieved by providing affordable insurance for property owners and by encouraging communities to adopt and enforce floodplain management regulations. These efforts help mitigate the effects of flooding on new and improved structures. Overall, the program reduces the socio-economic impact of disasters by promoting the purchase and retention of Risk Insurance in general, and National Flood Insurance in particular.

Additional information about the National Flood Insurance Program can be found at the following website:

<http://www.fema.gov/national-flood-insurance-program>

Information for State and Local Officials can be found at: <http://www.fema.gov/information-state-local-officials>

Information for consumers can be found at: <http://www.floodsmart.com/>. Specific information for Property Owners can be found at <http://www.fema.gov/information-property-owners>

The NFIP created a new Technical Support Hotline for National Flood Insurance Program policyholders who have questions about their flood insurance policy or the claims process. Information about the hotline is located at: <http://www.fema.gov/national-flood-insurance-program-technical-support-hotline>

I have also attached a recent flyer regarding the NFIP program and a New Release from the South Carolina Department of Insurance regarding a Catastrophe Claims Center in North Charleston.

Thank you all.

Maria - Please give Mayor Frank Brunson a call at 917-1251 (cell).

Hannah - Please do email me the materials so we can share as questions arise.

Hi!

Maria Lamm at SCDNR is the correct contact for floodplain questions. I am copying Maria on this email. Please let me know of any questions.

Thanks!  
Elizabeth

Flood mitigation is a local issue, so I defer to Elizabeth but we have background materials on the community-based National Flood Insurance Program. Just let me know and I'll share.

Elizabeth and Hannah - who is the appropriate contact for questions about the DNR's flood program:

Text received by the Gov: Hate to bother you on a Sunday. People are wanting to know about what SCDNR is going to prescribe for repair/rebuild options for flood zone/way properties. I just need to let people know how this is progressing. Especially businesses with limited zoning options for relocation. Thank you. (Mayor Frank Brunson) (Forest Acres)
