Subject: Protect South Carolina women - a message from Daniel in Columbia

Dear Governor Haley,

I'm writing to urge you to sign S 3, a life-saving bill that will protect victims of domestic violence -- with a key provision to keep guns out of the hands of convicted abusers.

It's a huge step forward for victims, their families, and the safety of communities across the state.

You've shown great leadership on this issue by setting up a critically needed domestic violence task force, and I sincerely hope you will continue to stand up for South Carolina women by signing this bill into law right away.

Thank you,

Daniel Carlberg
