Subj: Adoptions and Foster Care with Catholic Charities

Governor Haley

It is imperative we support Catholic Charities and other religious groups who provide adoption and foster care for children. If they do not support the placement of children in same-sex couples homes, that should not completely eliminate their funding. Frankly, as a clergy person I find the efforts of the left to force the issue of "same sex marriage" appalling. Create a new category and call it domestic partnerships or civil union, but not marriage as it is simply not the same.

Sincerely,

Tony Metze
