I need one or both of you to consolidate a list of house members and senate members individual records of how many vetoes they overrode or sustained. NV should not help them. I want a score card with an asterisk by all that voted by the pay raise or change of vote causing pay raise.

Attached is the document I've used to track votes and actions of both the House and Senate with regards to the budget vetoes.

It is being updated as they take up the votes/make actions, so it is a working document and is subject to change.

If you have any questions, or need anything else, please let me know!

Thanks!

Hal
