Ted - I thought you would enjoy this article (1/4 page in Computer Security Officer - CSO magazine) on incident response teams. Essentially, who does what after the breach.

Pretty interesting stats here - such as 560M records exposed in 3,438 data breaches since 2005. 70% of the respondents report a breach in the last 12 months! Makes you wonder how many states have been affected, but have not reported.
