South Carolina State Parks

at 12:00:02 on 10/01/2014 UTC · 🌐

Thanks to Duke Energy for its great support of South Carolina State Parks! The company is donating \$20,000 to help us improve our educational exhibits at Jones Gap and other Upstate parks. Clark Gillespy, president of Duke Energy's South Carolina operations, presented the check to District Park Manager Rob Achenberg and Lou Fontana, Director of Corporate Affairs, at a ceremony last week.

David Dial Duke Energy is not donating anything. They are giving away their customers payments. When they ask for a rate increase this twenty thousand will be an expense item. Thank Duke customers not Duke.

Brad Caldwell Duke owes this state immeasurably more!!! They take our lands and destroy them to make energy, then rob their customers blind while they make record profits and try to raise rates on top of all of that! This is the type of company that is destroying America, its economy and its people!!!
