Subject: Challenge ruling of the chair

- I want the people of SC to know that the tax collectors in the SC Senate is so dedicated to raiding your wallet that they threw me out of the Senate chamber when I tried to give you some money back.
- Senator Bennett offered an amendment to send money back as an offset to the gas tax. I ruled it to be in order. But the tax collectors are so adamant, that they evicted me to change the ruling and prohibit you from seeing any of your money again.
- The tax collectors have gone too far--Absolutely too far. I will do all I can to stop them from raiding your wallet, but their desire for your money has no limits
